

CONDENSER & HEAT EXCHANGER TUBE CLEANING SYSTEMS

SYSTEM 1000

Consists of:
1 – Robinson GC11
combination air and water tube
cleaning gun; complete with
nozzle, safety splash shield,
and adapter.

Quick Couplers
2 – 3/8" x 12' Hoses
2 – 3/4" x 50' Hoses
1 – Extra Nozzle
1 – 18" Extension Nozzle
1 – 50' Flex Ram Rod
1 – Catch Net 12' x 12'
1 – Gun Repair Kit #957P

SYSTEM 2000

Consists of:
2 – Robinson GC11
combination air and water tube
cleaning gun; complete with
nozzle, safety splash shield,
and adapter.

Quick Couplers
4 – 3/8" x 12' Hoses
4 – 3/4" x 50' Hoses
2 – Extra Nozzle
1 – 1/2" x 50' Flex Ram Rod
1 – Armor Net 12' x 12'
1 – Catch Net 12' x 12' 1 ply
2 – Gun Repair Kit #957P

SYSTEM 3000

Consists of:
3 – Robinson GC11
combination air and water tube
cleaning gun; complete with
nozzle, safety splash shield,
and adapter.

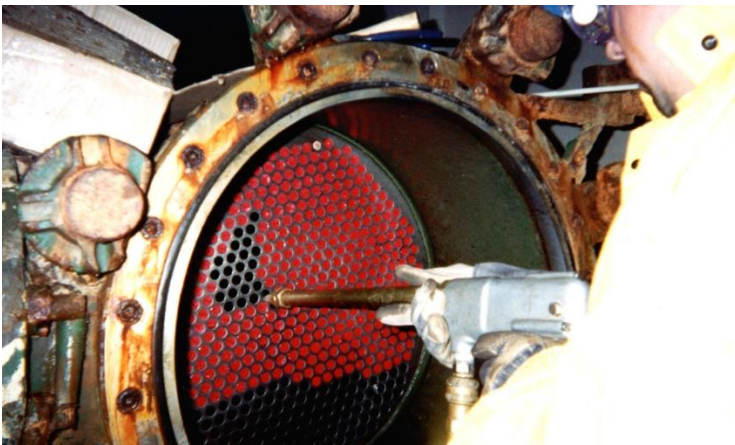

Quick Couplers
6 – 3/8" x 12' Hoses
6 – 3/4" x 50' Hoses
3 – Extra Nozzle
1 – 1/2" x 50' Flex Ram Rod
1 – Armor Net 12' x 12'
1 – Catch Net 12' x 12' 1 ply
3 – Gun Repair Kit #957P

WHICH SYSTEM IS RIGHT FOR YOU?

System 1000 – Just right for small Heat Exchangers

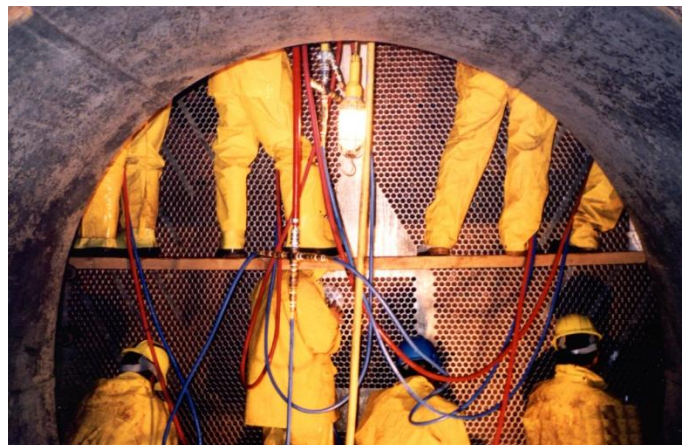

System 2000 – The right choice for larger Heat Exchangers, Air Conditioning Condensers, and all HVAC units. Shooting 2 guns simultaneously requires no additional pump.

System 3000 – For use on large condensers. When time is a factor load the entire box (each tube) with **Robinson** Tube Cleaners. Using System 3000; shooting 3 guns simultaneously gets the job done fast. Requires no additional pump.

System 1000

In use on a small heat exchanger

System 3000

Makes quick work of a large utility condenser
