

WALLYgrow™

Easy & Effortless Wall Planters

100%
RECYCLED

MADE IN
THE U.S.A.

More than a “look”, WallyGrow products are a commitment to design, performance, and sustainability.

WallyGrow has supplied plant wall systems for 10 years in the business, entertainment, education, hospitality, retail, and consumer space.

Throughout those years, WallyGrow has carved a niche in the plant wall market by providing a system that matches high-end competitors in longevity and effectiveness, but at half the cost. By removing this cost barrier, WallyGrow has stayed true to its original mission of allowing anyone in any space the opportunity to grow. Moreover, the simplistic design allows for in-house maintenance if desired.

WallyGrow is committed to localized manufacturing and sustainability through the use of recycled materials in the manufacturing of its products. To date, WallyGrow has diverted over 8 million plastic bottles and jugs from filling our already full landfills.

ECO

Recycled wall planter with watering reservoir

EASY TO INSTALL

Includes an easy on/off wall bracket that the Eco hangs on. All hardware included.

SUSTAINABLE

Made in the USA from 100% recycled plastic milk jugs.

SMART DESIGN

Built-in water reservoir feeds roots directly and can decrease total watering by up to 75%. IDSA National award winner.

HEALTHFUL PLANTS

Breathable front panel promotes optimal root health by allowing the soil to aerate naturally.

VERSATILE

For indoor and outdoor use. Suitable for annuals, perennials, tropicals, and edibles.

LEAKPROOF

When watering through the designated reservoir, water is absorbed by the soil before reaching the front panel.

ECO FRIENDLY

UP-CYCLING PLASTIC FOR A BETTER CAUSE

Eco planters are made from 100% recycled plastic bottles.

VISUAL MERCHANDISING

Endless possibilities for you
or your clients' space.

GOLDEN & PINE

HOME & GIFT SHOP

Kansas City, MO

Product Range: Provides the option for customers to buy the Eco solo, or for a higher, set price, to buy a fully planted Eco (perfect for first time plant owners!).

Hanging planter with true leakproof drainage

EASY TO INSTALL

Includes an easy on/off wall knob that the Loop hangs on. All hardware included.

SUSTAINABLE

Made in the USA from 100% recycled plastic milk jugs.

SMART DESIGN

Breathable and removable inner pot helps to avoid over watering and even allows for bottom watering using patented reservoir.

HEALTHFUL PLANTS

Suited for plants of all types, from tropicals to cacti and everything in between.

VERSATILE

Tie your loops in any style you desire using macrame or colored paracord.

LEAKPROOF

The outer shell is completely leakproof to compliment the self-draining inner shell.

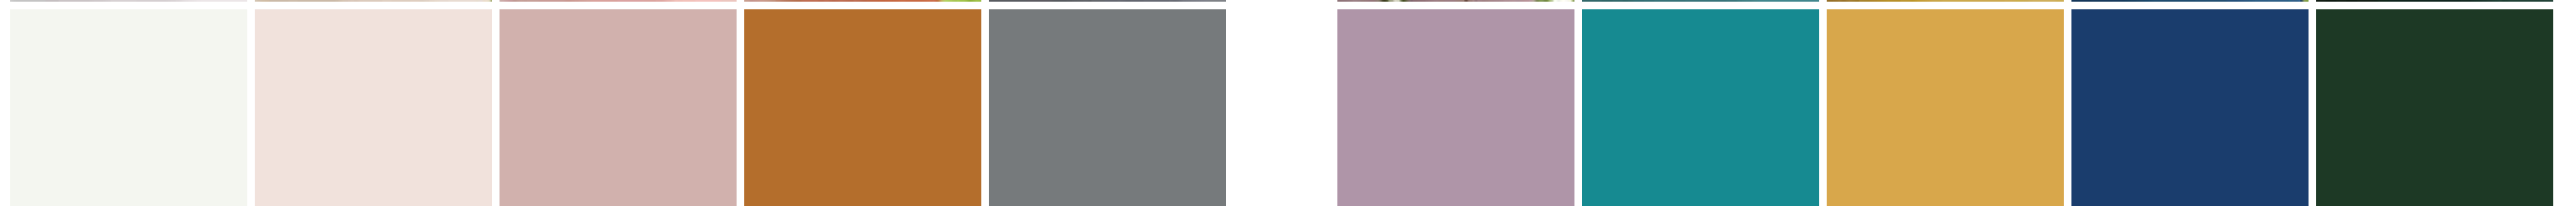

ECO FRIENDLY

UP-CYCLING PLASTIC FOR A BETTER CAUSE

Our Wally Loops are made from 100% recycled plastic bottles. Each Loop diverts plastic bottles from our landfills and oceans.

POCKET

Modular and sustainable wall planter

ORIGINAL DESIGN

Proven design for 10 years; ask for photos of our longest lived walls using Wally Pro Pockets.

VERSATILE

For indoor and outdoor use. Suitable for annuals, perennials, tropicals, and edibles.

SUSTAINABLE

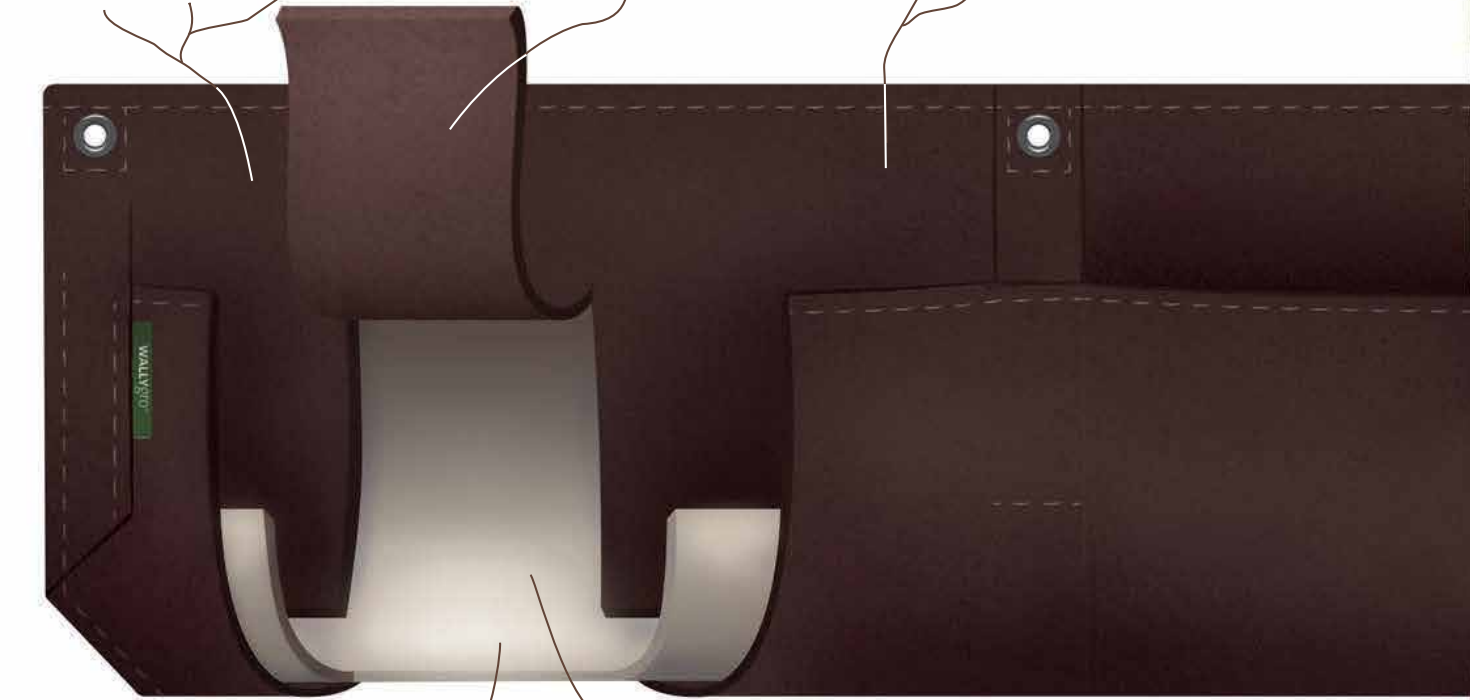

Made in the USA with felt made from 100% recycled water bottles.

WATERING CHANNEL

Rear 'tongue' panel forms a channel for water straight to where roots need it most.

OVERWATERING PREVENTION

The felt wicks moisture upward towards the top, where excess moisture evaporates, helping prevent oversaturation of the soil.

LEAKPROOF

When watering on the back felt panel, water is absorbed by the soil before reaching the front panel.

A waterproof lining extends to 3" from the top on Jr pockets, and 5.25" from the top on Pros.

PLANT MATURITY

Pocket depth allows for continued growth of plant and/or immediate maturity if desired.

HEALTHFUL PLANTS

Breathable, recycled material promotes plant health by allowing the soil to aerate naturally. Plant roots will become one with the felt; plants love our Pro Pockets!

ECO FRIENDLY

UP-CYCLING PLASTIC FOR A BETTER CAUSE

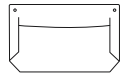

Our Pockets are made from 100% recycled plastic bottles.
