LEPRECHAUN TRAP

SUPPLIES NEEDED

Box

Gold

Scissors

Masking tape

Stickers

Have you ever seen a Leprechaun?

WARNING IT IS VERY DIFFICULT TO CATCH A LEPRECHAUN!

These little guys are very sneaky, so you will have to be creative. Use your imaginagination and good luck!

To make your own leprechaun trap, here are some elements you may want to include:

Decoration – use green construction paper or green glitter paper to decorate your traps. Or build a paper strip rainbow to bring your trap to life.

A bait of some sort — lucky charms, gold coins or fake gold can be your bait for the leprechaun!

A ladder – you can build a ladder with pipe cleaners, popcle sticks, twigs or even Lego!

Some trapping mechanism (or how you will trap the leprechaun) – you can trap your leprechaun with a hole (like our jars), a gate that closes or something that falls on top of the leprechaun (like the hat example).
