Quality and security for all your networking, AV and security applications

Exceptional build-quality and a host of features. Everything you need in a compact, 19-inch wall enclosure - flat packed.

The new **CAB-WFP-FE-6U450** is a feature-rich, 6u high wall enclosure that allows all networking, PBX, A/V and home automation to be installed within its universal standard 19-inch vertical support rails.

With an extra 450mm deep form-factor, the majority of entry level to medium range networking hardware can be installed with ease, as well of course passive networking hardware including patch panels, cable management, PDUs and even rack-mount fan trays.

Supplied as a flat-packed, easy to assemble enclosure means it can be easily transported to site and built in no time, in-situ.

Equipped with ventilation slots for increased equipment airflow, excellent security and of course easy, pre and post installation access.
