## YOUR GUIDE TO BRACELET SIZING

**Park  
&Lex**

### Some Helpful Info:

Our bracelets aren't "stretchy" but they do have some give, which makes one size suitable for a range of hand measurements.

As you wear your bracelets they will start to stretch a little over time - like a well-broken-in pair of shoes. For this reason, we recommend erring on the smaller side.

### *How To Measure:*

1. Bring all your fingers together as though you're putting on a bangle bracelet.
2. Use a soft measuring tape to measure the widest part of your hand (around the knuckles).
3. No measuring tape? No problem. Use a ribbon or string and mark the measurement. Lay the ribbon down and use a ruler to measure from the end of the ribbon to the mark.

### *Choosing the Bracelet Size for You*

Hand measurement is:	You Need:
7-8 inches →	Size S/M
8.5-9.5 inches →	Size M/L
10-11 inches →	Size L/XL

**Still unsure? We're happy to help!**
