### Instructions

**Step 1:** Remove hood.

**Step 2:** Remove the two bolts holding the upper dash and remove dash.

**Step 3:** Place amp onto amp straps and mark where you want to pre-drill your mounting holes.  
(Reference Picture Above)

**Step 4:** Pre-drill holes and mount the amplifier using the mounting hardware that came with your amplifier.

**Step 5:** Place amplifier with mounts inside the dash. Make sure the angled end of the amp mount is facing towards the front of the RZR. (Reference Picture Above)

**Step 5:** Drill self-tappers through the provided holes of the amp straps and through the metal.
