Recommended Locations for Install

Instructions:

Can-Am X3

- Step 1: Remove panel behind the head unit. (This is what you will mount your USB/AUX to.)
- Step 2: Once you have the panel off, use a uni-bit to drill. (Test fit the USB plug until its snug inside the hole)
- Step 3: Thread the plastic flanged nut onto the back of the USB.
- Step 4: Connect your wires to the head unit.
- Step 5: Re-install panel behind the head unit.

Polaris RZR

- Step 1: Use a uni-bit to drill into the plastic dash. (Test fit the USB plug until its snug inside the hole)
- Step 2: Thread the plastic flanged nut onto the back of the USB.
- Step 3: Connect your wires to the head unit.
- Step 4: Re-install panel behind the head unit.
