Red Stag Ltd Gates & Fences

Fence Panels & Matching Side Gates

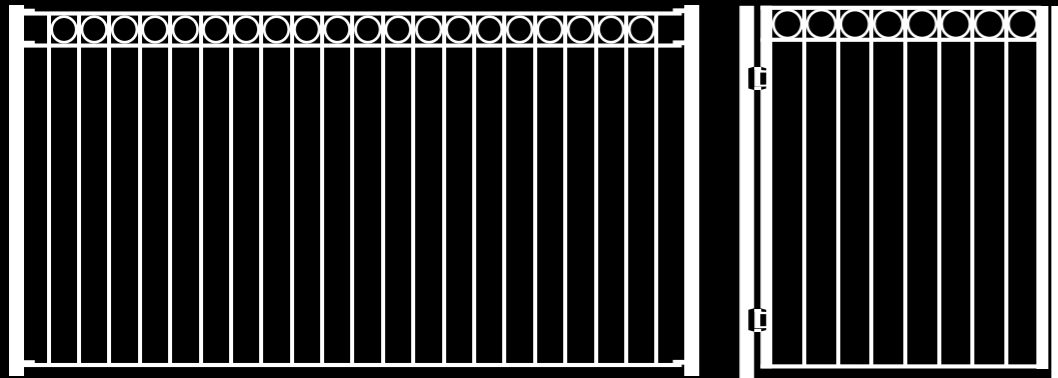

Fence Panels and Side Gates come in three different styles: Classic, Nouveau & Traditional
Three sizes: 900mm, 1200mm (pool fencing) and 1500mm. Traditional 2300mm long.

Fence panels are installed using a Steel bracket. This means panels can be attached to a wide range of materials – timber, steel, brick, concrete. The panels can be cut to size by the installer to suit most situations. Two types of brackets are available: Normal (90 & 180°) and Angle (30 to 60°) high.

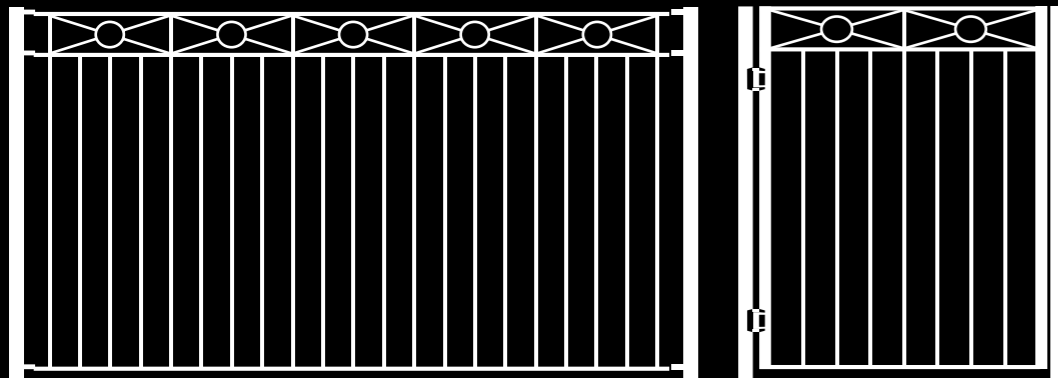

All Fencing and Side gates are Hot Dipped Galvanised with the option of powder-coating in various colours.

Choose from either In-ground Posts or Base Plate Posts (Flanged Posts), with a selection of different safety latches or hinges.

Driveway Gates & Garden Gate Styles

Driveway Gates and matching Garden Gates come in four different styles:
Nouveau, Imperial, Chateau, Windsor

Two sizes: 1500mm or 1800mm high.

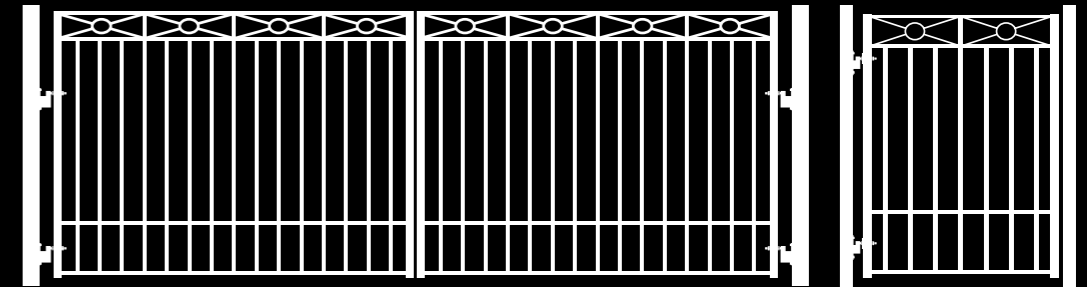

Double Leaf Driveway Gates come in three sizes: 4200mm, 3600mm & 3000mm wide

Single Leaf Driveway Gates come in two sizes: 3600mm & 3000mm wide

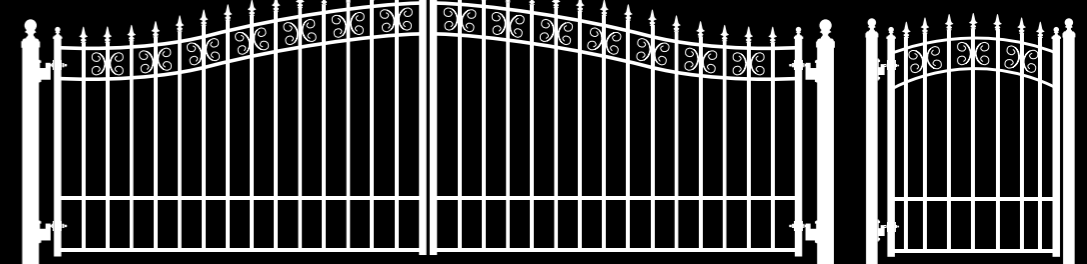

Our gates come with our custom-built hinges.
Each hinge has a ball bearing and grease system with easy adjustment for installation.

All Driveway & Garden Gates are Hot Dipped Galvanised with the option of powder-coating in various colours. Single or double Leaf Driveway gates are available.
