HOW LONG IS THE WARRANTY PERIOD?

FTR Systems' warranty obligations are limited to the terms set forth below: FTR Systems as defined below warrants this FTR-branded product against defects in materials and workmanship under normal use for a period of ONE (1) YEAR from the date of retail purchased by the original end-user purchaser (“Warranty Period”).

The limited warranty is effective for one year following the date of purchase. FTR Systems warranties the product against manufacture design and defect.

The manufacturer is not responsible for damage or part failure due to normal wear-and-tear or misuse of the product.

WHAT DOES THE WARRANTY COVER?

The following is covered under the terms of the limited warranty:

- YEAR 1: motors, electronics, battery, and mechanical parts.

WHAT WILL FTR SYSTEMS DO TO CORRECT PROBLEMS?

If a defect arises and a valid claim is received within the Warranty Period, at its option, FTR Systems will either

1. Send parts for replacement at no charge; or

2. Repair the defect at no charge, using new or refurbished replacement parts in cases where service work is required and performed by FTR Systems.

FTR Systems may request that you replace defective parts with new or refurbished user-installable parts that FTR Systems provides in fulfillment of its warranty obligation.

A replacement product or part, including a user installable part that has been installed in accordance with instructions provided by FTR Systems, assumes the remaining warranty of the original product or ninety (90) days from the date of replacement or repair, whichever provides longer coverage to the customer.

When a product or part is exchanged, any replacement item becomes your property and the replaced item becomes FTR Systems' property. Parts provided by FTR Systems in fulfillment of its warranty obligation must be used in products for which warranty service is claimed.
