Stylish magnetic clasp

JADE HEAT

Experience the healing arts of the Far East with Jade stones that radiate far-infrared heat deep into muscle tissue, creating a healing warmth that can be felt long after you leave the chair.

TUXEDO BACK COVER

This upholstery-matching back cover adds a finishing touch to your Perfect Chair®—front and back. It's a beautiful detail, especially if your chair is positioned with its back exposed.

EXTENDED ARM RESTS

The wide and long armrests give constant support even as the chair reclines into zero gravity.

MEMORY FOAM PLUS

An added layer of comfort that conforms to your body's unique contours.

FULL-SUPPORT HEAD PILLOW

The comfort pillow cradles the head and neck while providing ergonomic support. Easily adjust the pillow with a magnet that you can move along the spine of the chair.

POWER ADJUSTABLE LUMBAR SYSTEM

The active lumbar system allows you to customize your seating comfort with the touch of a button. Precision control gets you the exact support, just where you need it.

INTEGRATED CONTROLS WITH POWER HUB

A single, easy-to-use control panel lets you adjust the Jade heat and lumbar support with the touch of a button. The power hub provides a simple solution for managing power cords, keeping everything neat and organized.

3D EASEPOINT TECHNOLOGY™

Medical grade mineral pods evenly distribute your weight across the entire seating surface to eliminate uncomfortable pressure points.
