Persons insensitive to heat must pay attention when using this product. ■ If the supply cord is damaged, to avoid danger, it must be replaced by a professional from the manufacturer, its maintenance department or similar department
---	---

Safety Precautions must be observed

Important safety warnings	
 Warnings	<ul style="list-style-type: none"> ■ Do not allow children to touch any movable part of this product. ■ Use the well-grounded power supply unit suitable for this product. ■ Pull out the plug after use or before cleaning to avoid any physical injury or damage to the product. ■ Operate this product as instructed in this manual. ■ Do not use any parts or accessories which are not recommended. ■ Do not use this product outdoors. ■ Please read the Operation Instructions carefully before operation. ■ Never use this product for any other purpose not listed herein. ■ 20 minutes of usage each time is recommended. ■ Do not use this product if the cover or leather is broken or damaged. ■ Do not drop anything into this product. ■ Never fall asleep while using this product. ■ Do not use this product if you are drunk or feel unwell. ■ Do not use this product within one hour after a meal. ■ Do not use this product with excessive force to avoid any injury.

Safety precautions

 Caution	<ul style="list-style-type: none"> ■ Check whether voltage is consistent with the specification of this product. ■ Never insert or pull out the plug with a wet hand. ■ Do not let water flow into this product to avoid electric shock or cause damage to this product. ■ Do not pull the power cord when plugging or unplugging it. Rough handling is forbidden. ■ Do not damage the wire or modify the circuit of this product. ■ Do not clean live parts of this product with a wet cloth such as a power switch and plug. ■ Be away from this product in case of power failure to avoid any injury if power is restored suddenly. ■ Stop using this product at once while it works abnormal, and consult your local supplier. ■ Stop using this product if you feel unwell, and consult your health care practitioner.
--	--

Storage conditions

 Caution	<ul style="list-style-type: none"> ■ Storage room temperature: 41°F to 104°F. ■ Relative humidity (RH) between 20% and 80%; free of corrosive gases, and a well-ventilated room.
--	--

Safety Precautions must be observed

Product service and maintenance	
 Caution	<ul style="list-style-type: none"> ■ This product should be maintained by the service center designated by the manufacturer only. No user should disassemble or maintain it without permission. ■ Do not forget to turn off the main power switch after usage. ■ Do not use this product if the power socket becomes loose. ■ If this product will be left unused for a long period of time, it is necessary to roll up the power cord of this product and store this product in a dry and dust-free environment. ■ Do not store this product at a high temperature or near open flame. Avoid prolonged exposure to direct sunshine. ■ Please clean this product with dry cloth. Never use thinner, benzene or alcohol. ■ The mechanical components of this product are specially designed and manufactured, so no special maintenance is needed. ■ Do not use a sharp object to stab at this product. ■ Do not roll or pull this product on any uneven ground. Instead, it should be lifted before moving. ■ Please use this product intermittently. Do not keep it working continuously for a long period of time.
Operating environment	
 Caution	<ul style="list-style-type: none"> ■ Do not use this product in a very moist environment such as the bathroom. ■ Stop using this product immediately when the ambient temperature changes sharply. ■ Do not use this product in any heavily-dusty or caustic environment. ■ Do not use this product in a small space or a place without good ventilation.
Solutions to ordinary malfunctions	
 Caution	<ul style="list-style-type: none"> ■ If the motor sounds during operation of this product, this is the normal operation sound. ■ If the controller cannot work normally, check whether the plug and the power socket are connected reliably, and whether the power switch is turned on. ■ If the rated working time is over, this product will automatically activate the power-off button; If this product keeps operating for a long period of time, the temperature protector will stop this product automatically. The product can be used again after half an hour.

Installation Parts

Calf Installation Instructions

1. After power-on, lay the backrest frame down with the remote control.
2. Insert the harness connector and the air pipe on the side of the steel frame respectively into the position corresponding to the armrest (Figure 1).
3. Lift the armrest with inserted air pipe and wire, and hang all hooks to the armrest on both sides of the steel frame (Figure 2).

4. Put the roller at the rear end of the armrest against the surface of the armrest fixture (Figure 3) and lower the armrest backward and downward. Then push the armrest backward, and finally lock it with two M5 screws (Figure 4);

Installation Parts

Calf mechanism installation instructions

1. Insert the cable and air pipe of the calf mechanism, respectively, into the sockets at the front of the steel frame assembly (Figure 1).
2. After the connection is completed, open the calf mechanism fixing covers on both sides of the steel frame assembly (Figure 2).
3. Raise the calf mechanism and put it into the slot and cover the fixing cover and finally fix it in place with 2 M4 screws (Figure 3).

Installation Parts

Installation instructions for touch screen remote control holder

1. Align the holder with the front hole of armrest (right) and lock it with M5 screws (Figure 1);
2. Align the holder trim with the holder and press down along the holder rod to the end. (Figure 2)
3. After the entire holder is installed, shake the holder gently to check whether it is firmly installed; holder installation is complete. (Figure 3)

Place massage chair

Installation placement

Make sure there is enough space for the massage chair can be tilted at least 4inches.

Do not expose the massage chair directly to high temperature environment due to sunlight (such as: in front of heating equipment), and place it to where can avoid high temperature and direct sunlight. It is recommended to lay a soft cushion for long-term use in a designated location. When laying the cushion, the size of the cushion should be enough to cover the range where the machine touches the floor and the range where your feet touch the floor.

Product lift instruction

Require team work to lift and move the chair to avoid injury.

1. Please lift the massage chair to move it on vulnerable ground such as wooden floor.
2. When moving on a similar wooden floor, it is recommended to lift it. Avoid damage to the casters. When the floor is lifted and moved to the designated position, be careful to keep your hands out of the way to avoid injury, and be careful of your feet being crushed. Do not let go of the unit until the unit is completely flat, the floor may be damaged, therefore, it is recommended to place mats, etc. on the floor.

Place massage chair

Move method

Use the rear casters to move the massage chair. Move the chair by tilting it down and backward about 45° as shown in the diagram.

NOTE: Excessive force to title will cause the chair to tip over completely and product damage.

1. Before moving, please shut down the machine properly to reset the whole machine, and then cut off the power.
2. Please keep the chair vacant when moving. (People, pets or clutter will not be able to stay on the chair.)
3. When moving, do not cross a drop barrier higher than 2mm or a gap greater than 5mm.
4. When using casters to move this product, single continuous movement is not supported; if the distance exceeds 164ft meters, please make this product move slowly and evenly.

How to disassemble and use headrest cushion and backrest cushion

Using a headrest cushion can reduce the intensity of kneading massage on the neck and shoulders, and you can decide whether to use a headrest cushion according to your needs (recommended to use a headrest cushion). The backrest cushion and the backrest are connected by a zipper (1), and the headrest cushion and the backrest cushion are connected by a zipper (2).

Before use

Check around

Make sure that there are no people, pets and other objects around the unit.

Make sure there are no foreign objects in the gaps of the machine

Before massaging, make sure that no foreign objects are caught in the legs, feet, etc.

Under no circumstances allow hands, feet, and head to penetrate into the area between the lower leg mechanism and main body, or the area between the armrest and the capsule.

Under no circumstances should hands, feet, or head sink under the fabric or leather covering of the massage area.

Before use

Turn on the power

1 Plug in power cord

2 Schematic diagram of power on

3 Turn on the power switch ("I" position)

- Please check the power cord and plug for damage before use.
- Please supply power to this product in accordance with the working power requirements of this product's calibration.
- It is strictly forbidden to use a power supply other than the nominal power supply of this product.
- It is strictly forbidden to connect various power conversion devices without authorization to supply power to this product.

Product Structure

How to use the shawl

- It is provided with a unique shawl assembly, with innovative heating functions on the shoulder, back, waist and abdomen and heating with graphene. Users can place the shawl at different massage positions according to massage requirements. When the shawl assembly is placed at the shoulder position, it will heat the acupoints such as Bingfeng, Tianzong, Yunmen and Qihu around the shoulder and clavicle by graphene heating, effectively relieving symptoms such as scapulohumeral periarthritis and cough, and removing cold and moisture from shoulder joints.
- When the shawl assembly is placed on the abdomen and back (dual-purpose), through graphene heating, it plays the role of dispelling cold and relieving pain, warming channels and removing blood stasis in the back and abdomen, distributing Qi and blood of the back and abdomen meridian, alleviating the symptoms such as irregular menstruation and dysmenorrhea for women, relieving low back pain and kidney discomfort, warming intestines and stomach and clearing intestinal cold, with a good effect on some people with deficiency of qi and deficiency of spleen and stomach.

Armrest shortcut key description

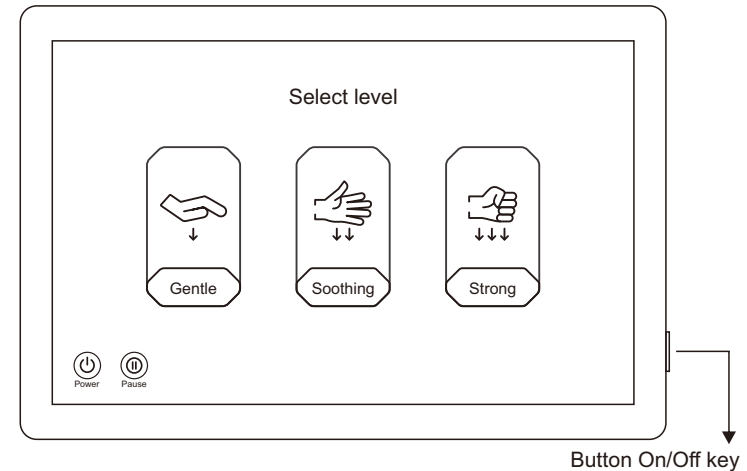

- 01. On/off key
 - Long press this key for 3 seconds to turn on or off the massage chair. After the massage is turned on, press the pause/run key briefly.
- 02. Zero-gravity key
 - Press this key to adjust the zero-gravity angle automatically, and zero-gravity at two levels can be adjusted. Long press the key for 2 seconds to restore the angle to the initial angle, lower the calf to the lowest and raise the backrest to the highest position.
- 03. Automatic mode key
 - Automatic massage program switching
- 04. Voice key
 - Long press for 3 seconds to turn voice assistant function on/off. Short press the key to wake up the voice assistant.
- 05. 4D intensity knob key
 - Turn the knob clockwise to enhance the 4D intensity, and turn the knob counterclockwise to weaken the 4D intensity.
- 06. Linkage up/down knob key
 - Turn the backrest clockwise to rise slowly. The calf frame falls slowly and stops rotation. The backrest and calf stop simultaneously, and the calf checks foot length automatically
 - Turn the backrest counterclockwise to fall slowly. The calf frame rises slowly and stops rotation. The backrest and calf stop simultaneously, and the calf checks foot length automatically.
- 07. Calf up/down knob key
 - Turn the calf clockwise to rise slowly and stop rotation, the calf stops and checks foot length automatically.
 - Turn the calf counterclockwise to fall slowly and stop rotation, the calf stops and checks foot length automatically
- 08. Foot stretching knob key
 - Turn the foot mechanism clockwise to stretch slowly and stop rotation, and the foot mechanism stops.
 - Turn the foot mechanism counterclockwise to shorten slowly and stop rotation, and the foot mechanism stops.

Operation Instructions

I. Start massage

1. Press the remote controller side button on/off key or long press the armrest on/off key

Press this key to turn the equipment on

2. After the system is started, select the massage intensity by clicking on any one of the Gentle , Comfort or Strong keys on the remote controller to turn on the massage chair and enter the lying state. If it is not selected within 5 minutes, the massage chair will turn off automatically.

3. For automatic angular adjustment, select the automatic program, then the massage chair will be automatically adjusted to zero-gravity angle, and wait until its adjustment is completed. To skip a step, press the skip key **Skip** to go directly to the next step.

Operation Instructions

4.Wait until body shape detection is completed, or you can press the skip key **Skip** to skip detection and start massage directly.

For fine adjustment of shoulder position, after body shape detection, the remote controller or a voice prompt will remind the user of fine adjustment of shoulder position. If the massage roller stops at the shoulder position, directly press the OK key **OK** to start massage. If not, use the Up key **▲** and Down key **▼** to adjust the massage roller to the shoulder position, and then press the OK key **OK** to start the massage. If no operation is made within 20s, directly default the current massage roller position for the shoulder position and start massage.

Operation Instructions

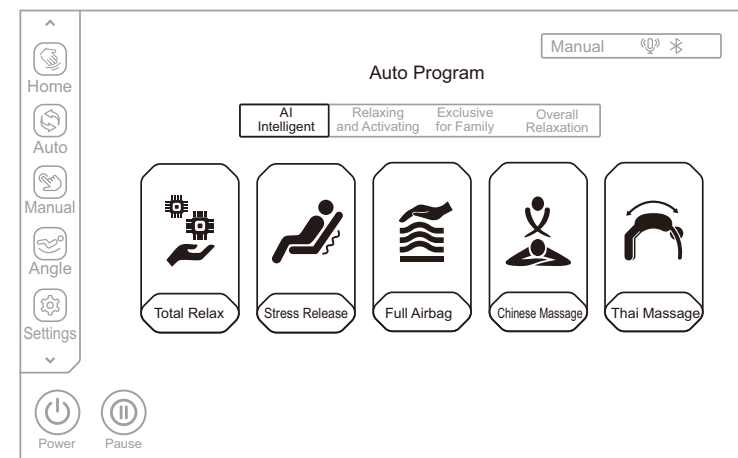

II. Pause function (please use this function after the equipment is turned on)

After the massage chair is turned on, press the pause key **⏸** to enter the pause state, then all massage functions will be suspended, and press the pause key **⏸** again to resume the previous massage state. Note: In the pause state, all functions do not work except shutdown.

III. Automatic program (please use this function after the chair is turned on)

Automatic program selection

- (1) Select the Automatic key **🔄** in the left menu bar to enter the automatic selection interface.
- (2) In the automatic program selection interface, there are 20 automatic program options available: Total Relax, Stress Release, Full Airbag, Chinese Massage, Thai Massage, Meridian Treatment, Neck & Shoulder Care, Waist Care, Waist & Buttock Shape, Leg & Foot Relieve, President Cosy, Keep Fit, Superior Enjoyable, Office Regimen, Health Recharge, Energy Boost, Lunch Break, Sweet Dream, Brain Refresh, Rejuvenate.
- (3) Select the desired automatic massage program and click to start massage.

Schematic diagram of automatic massage program selection

Operation Instructions

Massage scenes(AI Intelligent)	
Function	Description
Total Relax	The upper mechanical core is used to massage the neck, shoulders and Fengchi acupoint by kneading, and then work with tapping and Shiatsu to massage the whole body. 1. In the massage technique menu, a total of 11 options are available, including kneading, Tap I, Tap II, kneading and Tap, Shiatsu I, Shiatsu II, shoulder grasp, 4DI, 4DII, 4DIII and 4DIV. (Note: Click the "leftward arrow <" and rightward arrow >" button in the remote adjustment menu to scroll left and right to display more massage techniques).

Remote program - Schematic diagram of technique selection

Function	Message roller adjustment
4D I 	Speed and strength.
4D II 	Speed and strength.
4DIII 	Speed, width and strength.
4DIV 	Speed, width and strength.

Operation Instructions

Function	Message roller adjustment
Stop	Press this key to massage without any technique.
Knead 	The speed and strength can be adjusted.
Tap I 	The speed, width and strength can be adjusted.
Tap II 	The speed, width and strength can be adjusted.
Knead&Tap 	The speed and strength can be adjusted.
Shiatsu I 	The speed, width and strength can be adjusted.
Shiatsu II 	The speed, width and strength can be adjusted.
Grasp 	The speed and strength can be adjusted.

-Adjustable speed in five gears
-Adjustable width in five gears
-Adjustable intensity in five gears

Note: You can also click the massage technique key  in the "Home " interface to select the corresponding massage technique in the pop-up menu for massage (this function is a shortcut for switching massage techniques in the current status page of the remote program - technique adjustment).

Current Status - Schematic diagram of technique selection

Operation Instructions

2.The massage area menu has five options: Spot, Partial, Full, Upper and Lower. Select the corresponding massage area for massage.

Remote program - Schematic diagram of massage area selection

Key	Description
	Fixed-point massage at fixed-point position.
	Small-scope local massage back and forth.
	Full back massage back and forth.
	Upper back massage back and forth.
	Lower back massage back and forth.

Note: You can also click the massage area key **Area** in the "Current Status" interface to select the corresponding massage area in the pop-up menu for massage (this function is a shortcut for switching massage areas in the current status page of the remote program - massage area).

Operation Instructions

Current Status - Schematic diagram of massage area selection

3.You can adjust 4D intensity in the 4D intensity menu. There are 1~5 gears available for adjustment with 1 being the weakest and 5 being the strongest. The stronger the 4D intensity, the higher the massage roller ejection and the greater the massage strength. Select plus key **+** or minus key **-** to reduce the 4D intensity.

Remote program - Schematic diagram of 4D intensity

Operation Instructions

Key	Description
+	Press this key to increase 4D intensity which is adjustable from 1 to 5.
-	Press this key to decrease 4D intensity which is adjustable from 1 to 5.

Note: You can also select the 4D intensity + key **4D +** or 4D intensity - key **4D -** in the "Home" interface to adjust the 4D intensity. (This function is a shortcut to the 4D intensity in the current status page of the remote program-4D intensity).

Current Status - remote program-4D intensity

Key	Description
4D +	Press this key to increase 4D intensity which is adjustable from 1 to 5.
4D -	Press this key to decrease 4D intensity which is adjustable from 1 to 5.

Operation Instructions

4. For message hand adjustment, select the Up arrow or the Down arrow down to upwards or downwards fine-adjust the message hand position.

Remote program - Schematic diagram of message hand adjustment

5. For message width, as shown in the figure below, select the message width to adjust.

Remote program - Schematic diagram of message width

Operation Instructions

- (1)The width can be adjusted only when the user enters the remote mode in selecting massage technique or massage area.
 (2)The massage width is available from 1 to 5 gears, with 1 being the narrowest and 5 being the widest. Please use the following massage techniques: Patting I, Patting II, Finger Pressing I, Finger Pressing II, 4D III and 4D IV.

Key	Description
+	Press this key to increase massage width which is adjustable from 1 to 5.
-	Press this key to decrease massage width which is adjustable from 1 to 5.

6.For massage speed, as shown in the figure below, select the massage speed to adjust.

Remote program - Schematic diagram of massage speed

- (1)The speed can be adjusted only when the user enters the remote mode in selecting massage technique or massage position.
 (2)The massage speed is available from 1 to 5 gears, with 1 being the fastest and 5 being the slowest. The speed cannot be adjusted when the massage technique stops.

Operation Instructions

Key	Description
+	Press this key to increase massage speed which is adjustable from 1 to 5.
-	Press this key to decrease massage speed which is adjustable from 1 to 5.

Note: You can also select the massage speed + key **Speed +** or massage speed - key **Speed -** in the "Home" interface to adjust the massage speed.

Current Status - Schematic diagram of massage speed

Key	Description
Speed +	Press this key to increase massage speed which is adjustable from 1 to 5.
Speed -	Press this key to decrease massage speed which is adjustable from 1 to 5.

Operation Instructions

Operation Instructions

6. Backrest unit angular adjustment

Key	Description
 Back up	Backrest unit Up key: press and hold this key to slowly raise the backrest unit and release it to stop rising.
 Back down	Backrest unit Down key: press and hold this key to slowly lower the backrest unit and release it to stop lowering.

VI. Setting (please use this function after the equipment is turned on)

Click the "Settings"  button in the menu bar on the left side of the display to enter the setting interface, where you can view the product model, software version number, product serial number, and firmware version number. The interface includes language selection settings.

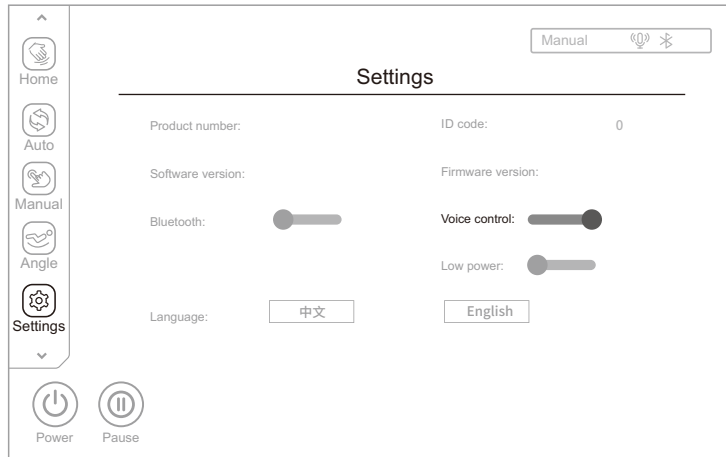

1. Product model, software version, product serial number, and firmware version show the information of current device.
2. Bluetooth (Operation Instructions for Bluetooth Speaker Play)
Click Bluetooth switch to enable or disable the Bluetooth function. After pairing and connecting the sound source device with Bluetooth function (such as mobile phone, MID tablet, etc.) with the Bluetooth module of the massage chair, the music played by the sound source device can be wirelessly transmitted to the sound system of the massage chair through Bluetooth for music playing.
 - 1). Enter the smart device main menu. Open "Settings" and select the "Bluetooth" option. Open "Bluetooth", and Bluetooth will automatically "Search for a New Bluetooth Device".
 - 2). The smart device will search for the corresponding Bluetooth model (e.g. IMCM-XXXX). Click the "Match" button. If you are asked whether to match with the device, you just select "Match" to complete matching.
 - 3). Turn on "Music Player" in the smart device and select the song to play.

Operation Instructions

3. Voice control

- (1) Near the right armrest, say "Hi Alice" or "Hey Alice" to wake up the voice assistant, or press the voice key  on the left armrest to wake up the voice assistant, and the voice assistant replies "I am here" to indicate that it has been awakened.
- (2) After waking up the voice assistant, please speak the command within 6 seconds to realize the function control of the massage chair. After the voice assistant responds to the command, you can continue to speak the command. The interval between two adjacent commands cannot exceed 6 seconds, otherwise the voice assistant needs to be re-awakened.

Operation Instructions

Operation Instructions

VII.Health detection (please use this function after the equipment is turned on)

1.Health detect starts

Click the "Health" button in the menu bar on the left side of the display screen to enter the health detection interface, press the start detection button "Start" to perform health detection, and then gently place the index finger or middle finger on the sensor. After a few seconds, it will display the real-time data of heart rate, blood oxygen and microcirculation, waiting for the completion of the detection progress.

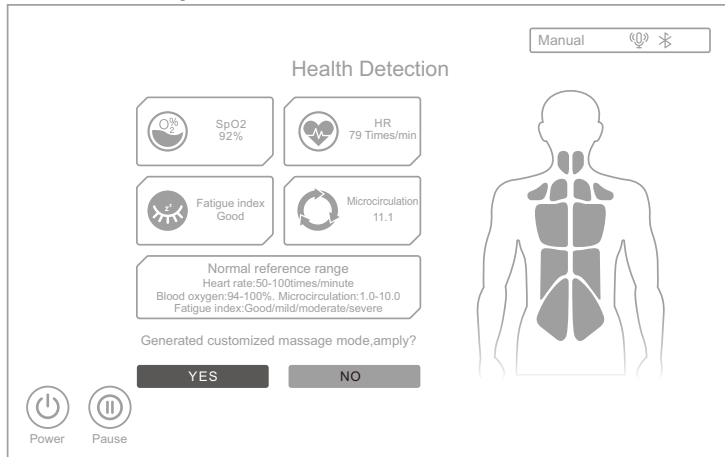

Health check progress indicator

Operation Instructions

2.Recommended program

When normal detection is completed, it will display the heart rate, blood oxygen, and the fatigue level, respectively. The blood oxygen means with the blood oxygen concentration ranging from 95% to 99% normally. The fatigue levels include Good, Mild, Moderate and Severe. Based on your fatigue level, an automatic program will be recommended for you. Select "Yes" to start using the recommended program and "No" to return to the message state before the health detection.

3.No valid data is detected.

If no valid data is detected, the user will be prompted to ask whether to re-detect. Select "Yes" to restart the health detection, and "No" to exit the detection and return to the message state before the health detection.

Operation Instructions

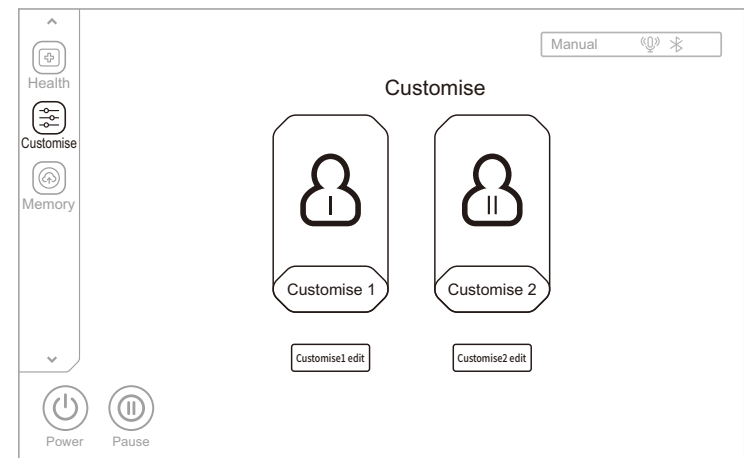

4.Exit health detection.

During health detection, press the **Exit** key to exit the detection and return to the message state before the health detection.

VIII.Custom (please use this function after the equipment is turned on)

Click the "Custom" key in the menu bar on the left side of the display to enter the custom setting interface and select either Custom I or Custom II (only if the corresponding custom has been previously set and saved) for massage.

Schematic diagram of Custom

Operation Instructions

Click Custom I Setting or Custom II Setting to enter the Custom Setting interface, then select the preferred massage technique whose icon will be highlighted after selection, and select the message interval, 4D intensity, air massage, message width, message speed, air intensity, back heating, calf kneading and other functions, then click Save to save the current settings as Custom I and Custom II. After the settings are saved successfully, the custom program will be immediately available and can be used for the next massage by clicking the saved custom program.

IX. Storage (please use this function after the equipment is turned on)

Click the "Memory" key in the menu bar on the left side of the display to enter the message function storage selection interface, with two categories including message function storage and message function call. Message storage includes: Storage I, Storage II and Storage III. Message call includes: Call I, Call II and Call III.

Key	Description

Remove the product connection power cord

Cleaning and Maintenance

Cleaning synthetic leather and plastic parts

Wipe the leather with a soft, dry cloth.

- Do not use chemicals such as thinner, gasoline, alcohol, etc. to clean the unit.
- When using commercially available leather care products (rags), please follow the instructions for use.
- If synthetic leather is particularly dirty, wipe it in the following way.
 - ① Immerse a soft cloth in water or hot water containing 3% to 5% neutral detergent, then wring it out thoroughly.
 - ② Use the above soft cloth to wipe the leather surface.
 - ③ Wipe off the cleaning solution with a cloth soaked in clean water and thoroughly wrung out.
 - ④ Wipe with a wrung soft cloth.
 - ⑤ Let it air dry naturally.
- When it is difficult to remove stains, please immerse commercially available melamine foam in neutral detergent, and then wipe the machine with it.
- Do not use a hair dryer to dry the surface.
- Be careful when wiping the machine with denim and colored fabrics, as the color of the fabric will stain the surface of the synthetic leather.
- Do not keep these parts in contact with plastic for a long time, as this will cause discoloration.
- Synthetic leather may be discolored, so when using hair dye, please cover the touched part with a towel.

Troubleshooting

Fault	When the calf mechanism or the backrest reaches a certain position, press the corresponding adjustment button and it will no longer change, and a continuous "beep, beep" sound will be emitted.
Solution	Due to product structure design and ergonomic requirements, this product has a limited protection design for the limit state of attitude adjustment. At the same time, a reminder sound will sound when the limit is reached.
Fault	The function does not work or some functions do not work after the machine is turned on.
Solution	After the machine is turned on by pressing the switch key, it is necessary to manually select an automatic massage program or other working state. If it is not operated, the machine will automatically shut down after 20 minutes. If the manual operation mode is selected, the functions that are not selected may be disabled, and the working mode needs to be manually set in the manual mode.
Fault	The machine makes a leather rubbing sound when adjusting its posture.
Solution	This product adopts high-grade anti-corrosion leather that meets environmental protection requirements. Due to the inherent characteristics of leather materials, there will be a normal slight noise when rubbing at the relative movement, which is a normal phenomenon. Note: If you hear fabric or leather tearing sound when the machine is running, please stop using it immediately and seek professional maintenance.
Fault	The massage wheel did not reach the shoulders or neck.
Solution	If the head does not touch the head cushion or the back does not touch the backrest, the shoulder position may be lower than the actual position during the body shape detection process. Sit in the deepest position of the seat, rest your head on the headrest, and start over from the beginning.
Fault	The unit is damaged. The power cord or power plug is abnormally hot.
Solution	To prevent accidents, be sure to contact an authorized service center.

Please feel free to contact the designated service personnel for any questions or doubts about this product.
