

SIMPLY PERFECTION

The Human Touch® Perfect Chair® artfully blends the best of aesthetics, technology, and wellness in a seating experience that transcends the highest standards of comfort.

The electric recline system eases the body into a virtually weightless position, as it elevates the legs above the heart and relieves weight from the spine. This remarkable chair relieves the soreness, tension, and fatigue caused by the earth's constant pulling, while its fixed-form seating position ensures maximum ergonomic posture at all recline angles.

DEFY GRAVITY®

The Perfect Chair® cradles you in zero gravity comfort, with your feet above your heart—the ultimate, doctor recommended, neutral-posture position for back and spine relief. Sitting in zero gravity relaxes and rejuvenates the spine by naturally decompressing the vertebrae. The healthiest way to sit, for a reason.

Perfect Chair®

 classic power

ELECTRIC RECLINE SYSTEM

A smooth, high-performance recline system eases the chair from upright to full recline. Take control and release the lever at your desired angle.

ARTICULATING HEADREST

Customize the optimum angle of comfort, maximizing neck support at any recline angle.

THE STRENGTH OF STEEL

High-tensile-strength steel is sandblasted, cleaned and powder-coated with a protective surface ensuring long-term durability and a smooth, quiet glide when reclining.

FULL-SUPPORT HEAD PILLOW

The comfort pillow cradles the head and neck while providing ergonomic support.

TOP-GRAIN LEATHER

Durable leather designed for longevity with a subtle, pebble-grain texture. Our top-grain, aniline-dyed leather is made from the strongest and most supple part of the hide. Surrounding yourself in fine leather is the ultimate luxury.

THE WARMTH OF WOOD

Our hand-carved and hand-finished solid wood base is made from the Hevea Brasiliensis (rubber tree), which yields one of the strongest woods on earth. The result—rich, lustrous beauty that lasts for years and years.
