

Helping Tips

Installation:

Check the area of your patio furniture, appliance or machine to create certain there aren't any sharp objects or corners that would stress the cover as you pull it on.

Click-Close Straps:

Utilize the click-close straps to wrap around your furniture legs and snap shut.

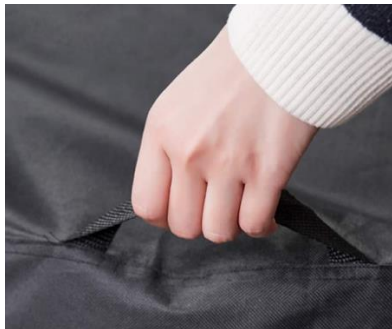

Adjustable Cord Lock:

Tighten the cord and tie a knot to prevent the button from sliding due to strong winds.

Handles & Air Vents

For easy fitting and removal, Reduce inside condensation and wind lofting.

Final view:

Uplift the surface of cover by putting an airbag or box underneath the cover, so the water will not be stored.
