**1. Position The Z-Base 555.**

“TV base” position

Place the Z-Base 555 on a stable, flat surface. Ensure all components are safe and secure.

**2. Connect the power cord.**

Back of Z-Base 555

Connect the AC power cord to the back of the Z-Base 555. Leave the Power Switch in “Off”. Then insert the AC plug into an AC power receptacle.

**3. Connect to Audio Output of TV.**

Optical Audio Output

Connect one end of an optical digital (toslink) cable to the TV’s Audio Out optical jack.

**4. Connect to Audio Input of Z-Base 555.**

Back of Z-Base 555

Z-Base 555’s Optical Audio Input

Connect the other end of the optical cable to the Z-Base 555’s optical input jack.

**5. Flip on the Power.**

ON

Flip on the Power.

**6. Select the correct input.**

Select the TV input using the remote control or the front panel.

- Optical digital input
- Coaxial digital input
- Input 1 (rear panel)
- Input 2 (rear panel)
- Input 3 (front panel)

**Other Audio Connection Options**

- **Phono Jack Analog Audio Out**
  
  White/red pair of phono output jacks (not “input”) on back of TV.

- **“Minijack” Analog Audio Out**
  
  Some TVs use a “minijack” output (not “input”) or headphone jack.

- **Coaxial Digital Audio Output**
  
  (Single phono jack, may be orange)
  
  Any cable with a phono plug at each end can be used.
