- Purple - 172

Pattern 3: Back

Assembly:

Front: Working through the bead holes, use a needle and the thin ribbon to add decorative lacing around the edge of the front piece. Use the wide ribbon through the two openings to tie a pretty bow. Angle cut the ends.

Bead Color/# Needed:

● Purple - 589

Back: Create a hanger with a length of thin ribbon by stringing 5" of extra beads onto it and tying the ends to the openings. Insert a piece of wide ribbon through each opening and tie in a knot. Angle cut the ends.

Sides: Align and glue the 8 layers for the sides, then glue to the front and back pieces.

Fusing Instructions—Only Adults Iron

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

Note: Beads need heat for about 10-20 seconds per side to fuse evenly. Depending on the size of the project, additional heating time may be required. Since you are working on a 3-D project, DO NOT OVER-IRON the beads as it will make the centers of the beads close and can make assembly more challenging.
