Wall Storage: Racks

Protect your investment with the leader in innovative storage solutions.

Paddling sports experts agree the best way to store your boat is suspended on straps that conform to the hull. This is the philosophy upon which Suspenz designed our premium Suspension Strap System featured in our Wall Storage Racks.

Most importantly, Suspenz combines suspension straps with rectangular tubing for the most secure mount—whether that be to the wall, our modular Free-Standing Storage or Over-Water Dock Mount Systems—virtually any vertical surface.

S Suspenz Suspension Straps™

This system conforms to the hull to eliminate pressure points, thereby protecting from distortion and other damage.
