Full-Time

Why Work Here?

“Depict is the world’s most considered digital art experience.”

Summary of Position:

The Sr. Electrical Test Technician responsible for the technical tasks and support of daily operations activities and engineering development projects related to LCM (liquid Crystal Monitors) for ART. This position will also be responsible for working closely with our CM (Contract Manufacturing) at domestic and overseas (mainly in China) to define requirements, set deliverables, and provide status throughout the product build-plan(s) and project(s).

Key Responsibilities:

- This position will be working with the highly skilled MFG/Hardware engineering teams, as well as every other functional area involved in CM’s Development, in order to identify and resolve potential risks to the schedule and/or to the quality of the product.
- Assembles experimental circuitry or complete prototype model according to engineering instructions, technical manuals, and knowledge of electronic systems and components.
- Recommends changes in circuitry or installation specifications to simplify assembly and maintenance.
- Sets up standard test apparatus or devises test equipment and circuitry to conduct functional, operational, environmental, and life tests to evaluate performance and reliability of prototype or production model.

Required Education/Experience:

- Minimum AS ME/EE degree required.
- 4+ years of technical Electrical/Mechanical experience.
- Experience with Agile or/and Arena Data-base extremely desirable.
Experience with full project lifecycle, including requirements, planning, reporting, and budget management.
- Deadline and detail-oriented.

Skills and Attributes

- Excellent communication skills, both verbal and written.
- Self-motivated and proactive with demonstrated creative and critical thinking capabilities.
- Experienced with document control, design history records and source control.
- Experienced with ECO, CAPA, SCAR and RMA Processes.
- Experienced with MS office skills including Power Point, Excel and MS Project.
- Must be willing to travel 15% (once a year) to support our CEM(s) around the world when required.

Physical and Sensory Requirements:

- Candidate must be able to sit for long periods of time to perform duties.
