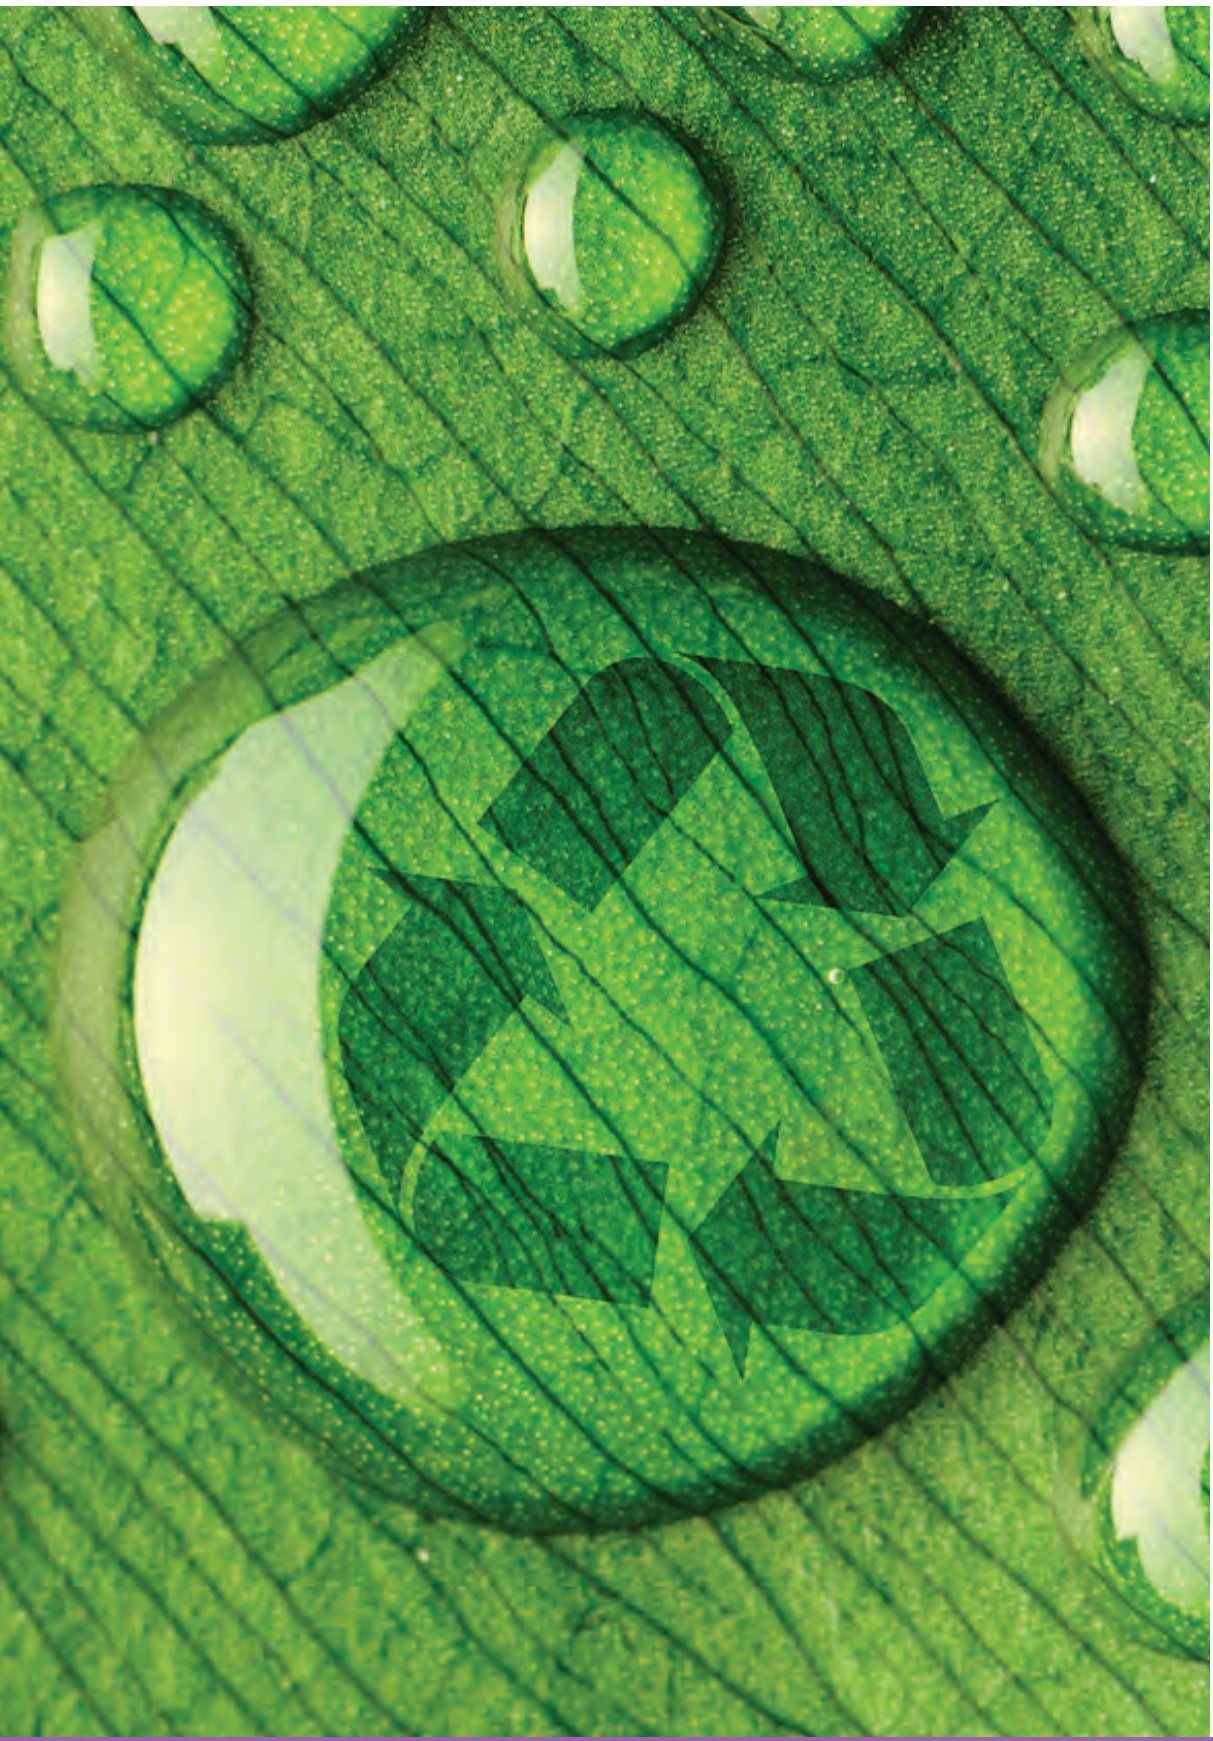
REUZIT™

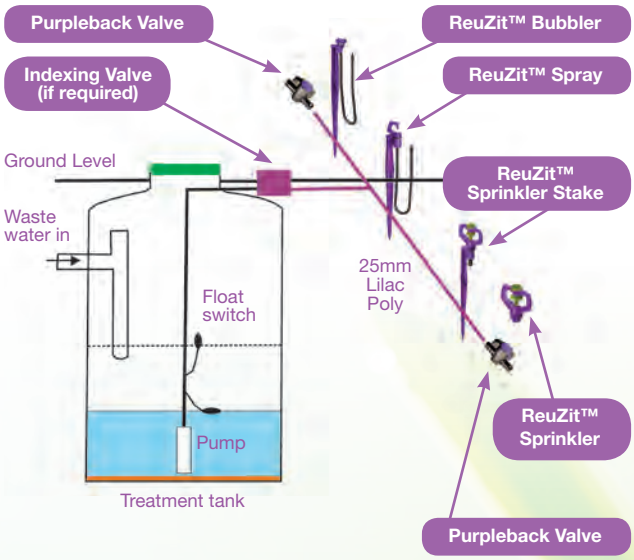
Recycled Water Products



Putting water where it counts!®

TIP – *Provide signage for your garden.*

Typical Aerobic Treatment System



REUZIT™

The ReuZit™ range of products have been specifically designed for domestic and small commercial Aerobic Treatment Systems (ATS). They are easily identified by their purple (Lilac) colour, which is the international standard for recycled water products (do not drink).

Features of products

- ✔ Operate at low pressures which is typical of these systems.
- ✔ Spray irrigation gives visual indication of correct operating system.
- ✔ Watering devices have large nozzle sizes to help resist clogging.
- ✔ The spray height is less than the recommended 0.6m.
- ✔ Purple (Lilac) colouring to indicate “do not drink”.

Recommendations

- ✔ Install ReuZit™ products in well mulched garden beds
- ✔ Ensure water does not run off from garden beds.
- ✔ Consider using an indexing valve for larger areas or where soils are heavy.

TIP – *Remember to keep your garden beds mulched.*

Accessory Products

Punch ‘n’ Cut
Code: **51098**

25mm
PurpleBack Valve
Code: **46545**

We recommend using quality Antelco poly fittings and clamps with these systems.
Ask your stockist to show you our range.
