FISH VIGOR BENEFICIAL BACTERIA LIQUID SOLUTION

Help to reduce nutrient leaching into water & promote microbial balance.

Assist in reducing ammonia, nitrites, phosphorus, organic matter, & odours.

6 pure microbial strains enriched with 14 essential vitamins and minerals.

Safe for all aquatic life, even at higher doses, to support a healthy aquatic ecosystem.

250mL net

READ SAFETY DIRECTION

Fish Vigor is a natural, high-performance liquid microbial formula that helps maintain a cleaner pond environment by reducing nutrient accumulation from uneaten fish food. It can be applied as a feed pre-treatment to help minimise nutrient leaching into water and support balanced microbial activity in the system. By improving water conditions, it contributes to a more stable and balanced aquatic environment.

Direction for Use:

- Shake well before use
- Lightly mist or spray onto dry fish pellets just before feeding
- Allow feed to absorb liquid for 5-10 minutes
- Feed the fish like normal

Important Notice: Fish Vigor is **NOT** a veterinary medicine and contains no synthetic chemicals. It provides an effective nutritional approach to maintaining fish condition in sensitive systems when medication is not preferred. **For ornamental use only.**

Safety: Avoid eye contact. If product gets into eyes, rinse immediately with water. Not for human consumption. Keep out of the reach of children. Store in the closed, original container out of direct sunlight. Best stored between 5 - 45 °C. **DO NOT FREEZE.**

Improper use or deviations from the recommended application guidelines as well as changes in water conditions may harm aquatic life. BBA Biosolution is not liable for such losses.
