

JACKHAMMER

Concrete Remover

About

JackHammer is a specialized product that removes hardened concrete from tools and equipment. It eliminates the need for blasting, bush hammering, and jackhammering hardened concrete buildup. Available in both concentrate and ready to use.

Applications: Ready mix trucks, transport buggies, screeds, trowels, troweling machines, floats, concrete forms, pre-cast forms, mortar mixes, aggregate and mining equipment.

1

Product rinses with cold water

2

Does not contain sulfuric acid, phosphoric acid, or hydrochloric acid

3

Safe and highly effective formula

Lengthen the life of tools and equipment

Drastically reduces maintenance costs and downtime resulting in increased productivity

Maintain resale value of costly equipment
