

# HEATSTRIP<sup>®</sup> MAX

Dual Carbon Element

THX2400DC

THX3600DC

## HEATSTRIP MAX

With a unique dual element and reflector design, the NEW Heatstrip Max range produces world class performance, when maximum heat output is needed.

# HEATSTRIP® Infra-red Electric Heaters

## HEATSTRIP® MAX Dual Element

Models THX2400DC and THX3600DC

The new HEATSTRIP Max Dual Element heater has been designed to maximize heat output, with world class quality and aesthetics. With a stylish hexagonal grille and black finish, it is ideal for the really hard to heat application including high ceilings, exposed alfresco balconies, pergolas, verandahs, warehouses and restaurants.

### FEATURES

- Dual Carbon element technology and upgraded heat reflector design that delivers maximum, world class heating performance.
- Anodised alloy componets provide corrosion protection, even suitable for coastal locations
- Easy installation with the brackets included. Suitable for ceiling or wall mounting. 3600 model must be hardwired.
- Commercial grade quality and construction, 2 years full replacement warranty

### Optional Mounting Options

Standard bracket options  
(Chains not included)

MOUNTING HEIGHTS:	
MINIMUM HEIGHT	2.1M
RECOMMENDED HEIGHT	2.3M - 2.5M
MAXIMUM HEIGHT	3.0M
INDOORS MAX	3.5M

OPTIONAL ACCESSORIES	
PART NO.	EXT. POLES
THYAC- 047	2 x 300mm
THYAC- 048	2 x 600mm
THYAC- 049	2 x 900mm
THYAC- 050	2 x 1200mm

FLUSH MOUNT KIT	
THX2400DC	Part No: THXAC-030
THX3600DC	Part No: THXAC-033

HEATING AREA							
MODEL	INDOOR PROTECTED (m <sup>2</sup> )	OUTDOOR EXPOSED (m <sup>2</sup> )	OUTDOOR ENCLOSED (m <sup>2</sup> )				
THX 2400 DC	19	7	12				
THX 3600 DC	28	10	18				

  

MODEL	RUNNING COST	POWER (watts)	CURRENT (amps)	DIMENSIONS (WxDxH)mm	WEIGHT (kgs)	LEAD LENGTH	PLUG
THX2400DC	60c/hr	2400	10	854 x 170 x 80	6	1000	Yes
THX3600DC	90c/hr	3600	15	1054 x 170 x 80	8	1000	NO

MATERIALS OF CONSTRUCTION:
HEATER: Anodised alloy casing and end caps with a powder coated grille
ELEMENT: New dual elements constructed from robust carbon filament
REFLECTOR: Aluminium with a high surface area design

\*Running costs based on \$0.025/kwh.
