

Pop Down[®] Mechanism Replacement

The metal stopper unscrews from the old mechanism

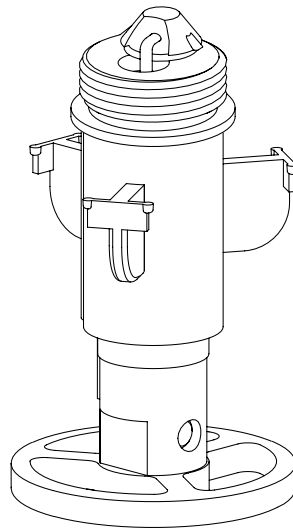

If stopper does not readily unscrew by hand, grip stopper with pliers using heavy cloth to protect metal and finish

This o-ring is removable and replaceable. Make sure o-ring is seated well in the groove with no twists

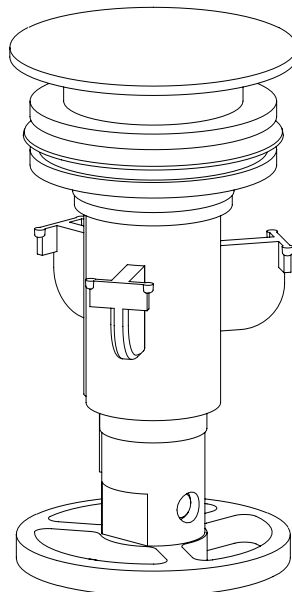

Be careful, do not scratch brass stopper with pliers!

Screw stopper on to new mechanism

**Operate
New Mechanism
Regularly for
Optimal Service**

Replace assembly in sink
