

STENCIL

COLLECTION

VOL 1 2021

INTRODUCTION

Decora Stencil Collection

Creation, preservation and destruction of life coexist in matter, in us, in everything that surrounds us and their measure is balanced by earth, fire, air and water.

The Decora stencil collection is born from a careful reflection of these aspects of the macrocosm and blends art and emotion in a collection of icons capable of giving life to the walls.

Just like the stability of the four elements, even the subtle balance between shapes and colors can give boundless emotions.

An aerial photograph of a rugged, mountainous landscape. The terrain is characterized by deep, winding river valleys and steep, rocky slopes. The colors are a mix of earthy browns, reds, and oranges, suggesting a semi-arid or high-altitude environment. A prominent river valley runs diagonally across the center of the image. The overall appearance is that of a natural, unspoiled wilderness.

FROM THE EARTH

Great art picks up where nature ends.

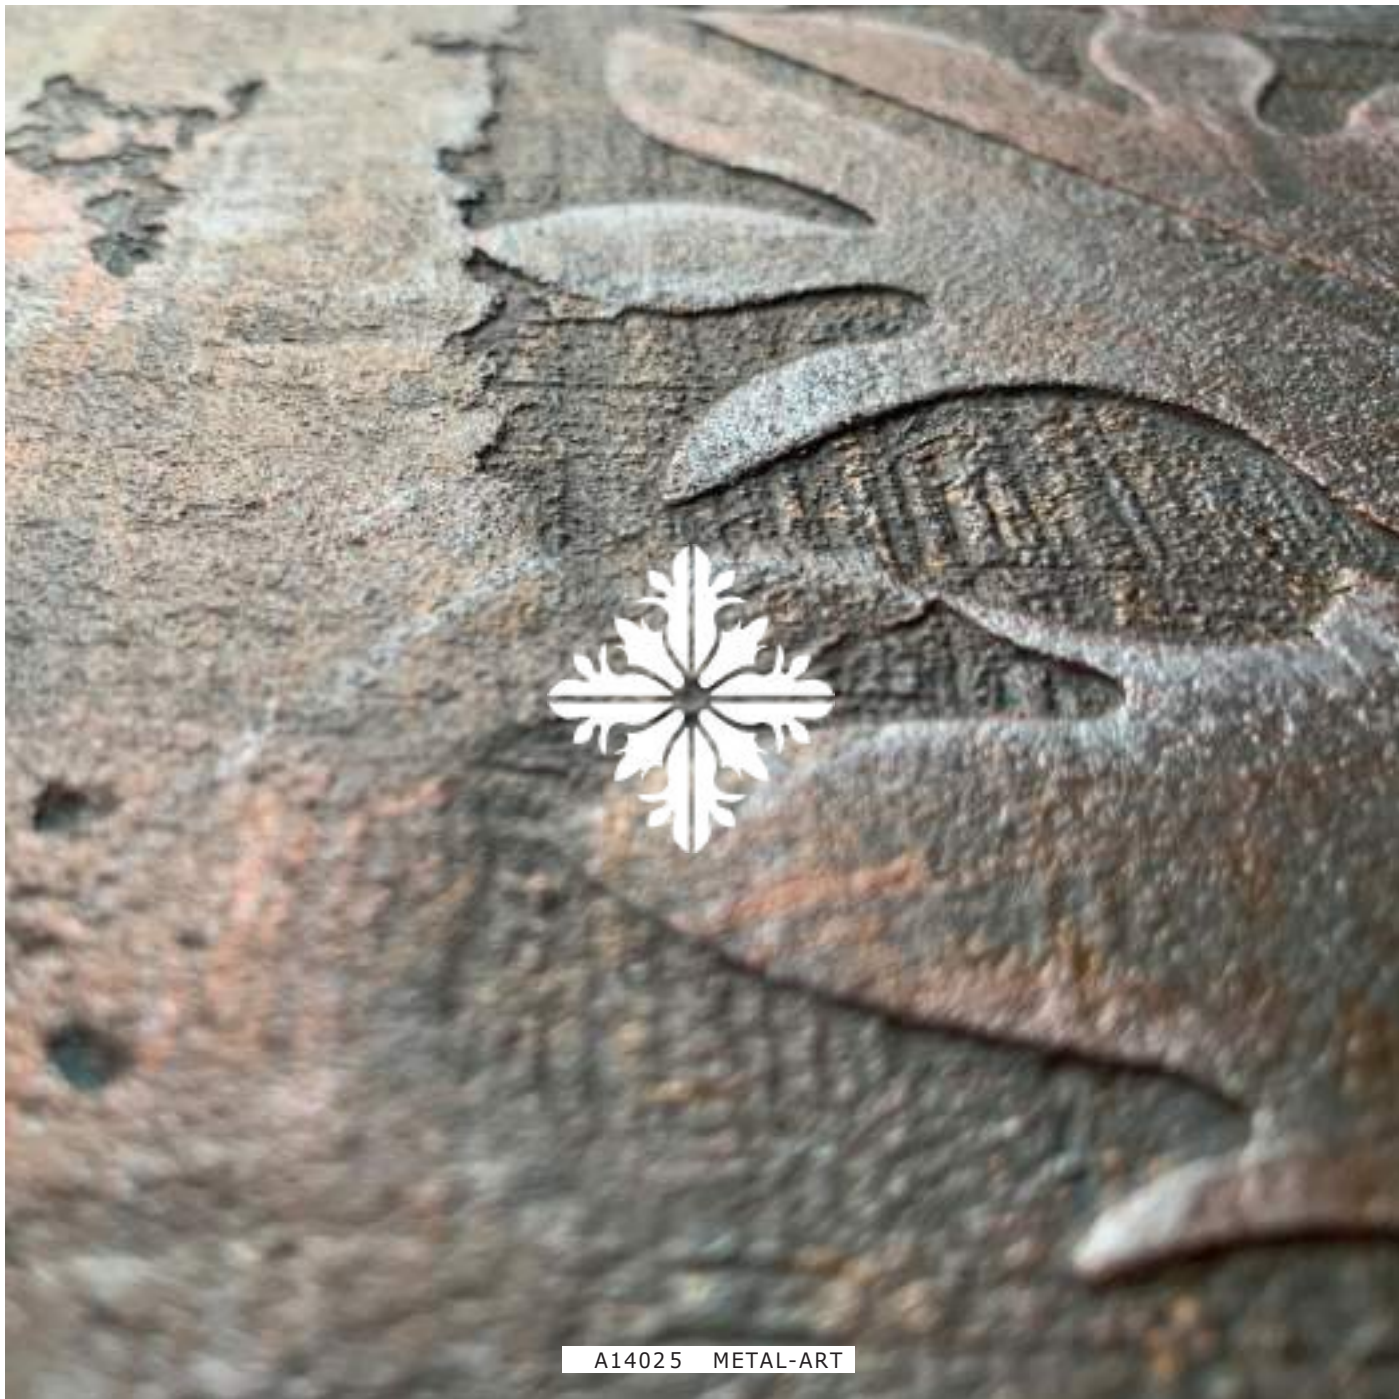

A14004 NATURAL-ART

A dark, almost black background with a fire at the bottom center. From the fire, a large number of small, glowing orange and yellow sparks are falling upwards and outwards, creating a dense shower of light against the dark background. The sparks are concentrated in the lower half of the image and become more sparse as they rise.

FROM THE FIRE

Keeping your emotions alive.

A14025 METAL-ART

A dramatic sky with large, billowing clouds in shades of orange, red, and blue. The clouds are dense and textured, with some appearing as bright orange and others as deep blue. The overall atmosphere is one of intense, fiery energy.

FROM THE AIR

A pattern of art and creativity.

A14020 TADELAKT-ART

An aerial photograph of turquoise water with white foam from a boat's wake. The text is centered in the middle of the image.

FROM THE WATER

Bringing art to life.
