90 DEGREE ADAPTERS

LockNLube offers three different 90° Adapters to maximize the flexibility of your LockNLube®, or standard, Grease Coupler so you don't have to change your grease gun to reach troublesome fittings. Check it out below to see which adapter is best for your application.

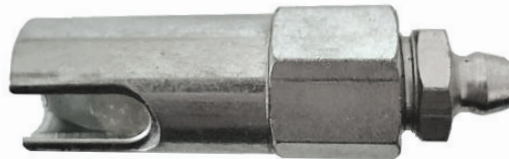

LOCKNLUBE 90° GREASE COUPLER ADAPTER

SKU: LNL120 \$14.98

A 90 degree adapter for hard-to-reach grease fittings with three hardened steel jaws and rubber seal.

Easily connect and disconnect your grease coupler to the Zerk fitting under the collar of this tool. Gives extended reach and a right angle access to tight spaces.

PUSH-ON 90° GREASE COUPLER

SKU: LNL121 \$9.95

Grease hard-to-reach fittings that have a very low overhead clearance. Attach your LockNLube® Grease Coupler to the Zerk fitting in the back then push on from the side to connect to any grease fitting.

LOCKNLUBE SIMPLE 90° COUPLER

SKU: LNL129 \$6.99

Our narrowest right angle adapter. This tool is ideal for small openings or recesses on the machine. Use in confined and narrow spaces where grease fittings are hard to reach.
