Derived From: Ammonium Phosphate, Biosolids, Urea, Muriate of Potash

PRECAUTION AND STORAGE

WARNING – KEEP OUT OF THE REACH OF CHILDREN

Causes eye Irritation. Causes skin Irritation. Harmful if inhaled. Harmful if swallowed. Wear protective gloves and other clothing to prevent exposure. Wash thoroughly after handling. Avoid breathing dust. Use only outdoors or in a well-ventilated area. Keep container tightly closed.

IF ON SKIN: Wash with plenty of water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical advice/attention.

IF IN EYES: Rinse cautiously, with plenty of water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a **POISON CENTER** or doctor if you feel unwell. If medical advice is needed, have product container or label at hand. Dispose of contents by utilizing as directed on this label, or call your local solid waste agency for disposal instructions. Dispose of empty container, out of reach of children.

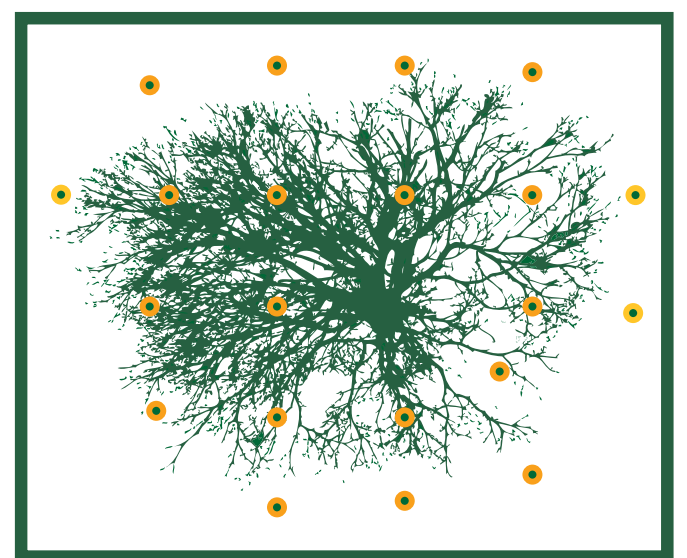

Storage: Store in original container, out of reach of children.

GENERAL INSTRUCTIONS

Gardens and Flower Beds:
Evenly apply up to 0.5 pounds of **TCS Elegant Garden™ General Purpose Fertilizer 13-13-13** per 100 square feet depending on crop and soil analysis. Work into the soil to a depth of 6 inches. Once plants are established apply additional fertilizer based on County Extension Service recommendations. Apply fertilizer evenly and do not apply fertilizer directly to plant foliage or stems. Water in after application.

Shrubs and Trees:
For shrubs, apply **TCS Elegant Garden™ General Purpose Fertilizer 13-13-13** when plants are dormant in the late fall or in the early spring. Spread fertilizer evenly at a rate of up to 0.5 pounds per 100 square feet of bed area. The fertilizer should be kept 12 to 18 inches away from the base of shrubs. Water in after application to remove any fertilizer that may be in contact with the foliage and to move fertilizer into the soil.

For trees, apply **TCS Elegant Garden™ General Purpose Fertilizer 13-13-13** when trees are dormant in the late fall or in the early spring. Apply 0.5 pounds of fertilizer per inch of trunk diameter at chest height (4" diameter tree= 2 pounds of fertilizer) evenly under the canopy of the tree where there are no ground cover plants or turf growing. An alternate method is to auger holes 6 to 8 inches deep in a grid pattern as shown in the diagram (right). Keep holes at least 3 feet from the base of the tree. Place fertilizer in holes, evenly applying the appropriate amount of fertilizer under the canopy of the tree using 0.5 pounds per inch of trunk diameter at chest height (a 4" diameter tree would require a total of 2 pounds of fertilizer). Then finish filling the holes with dirt. Using either method, no more than 5.3 pounds of fertilizer should be used per 1,000 square feet of ground area. Water fertilizer in after application.

ADDITIONAL INFORMATION

The suitability of this product for use in any given application depends on existing soil chemistry, plant type, and intended use of the area. The best results with this product are obtained when it is applied as directed above and watered into the fertilized area soon after application. For large, unobstructed areas, broadcast application with rotary or pendulum spreaders is recommended for uniform distribution.

DO NOT apply near water, storm drains, or drainage ditches. DO NOT apply if heavy rain is expected. Apply this product only to your gardens, flowers, shrubs, and trees, and sweep any product that lands in the driveway, sidewalk, or street, back onto the area you intend to fertilize. DO NOT apply to frozen ground.

This product may stain driveways, walkways, streets, porches, and other non-target areas. After application, sweep or blow any residual fertilizer on paved or other surfaces back onto the area you intend to fertilize.

Not for use in organic crop and food production.

WARRANTY

Turf Care Supply Corp. warrants that this product conforms to the analysis on its label. When used in accordance with label directions, under normal conditions, this product is reasonably fit for its intended purposes. Since time, method of application, weather, plant and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.
