

OR ET AZUR

AOP Languedoc

Act for planet

Winegrower's note

The colours Gold and Azure are heraldic symbols linked to the Bee since the ancient times. Its symbolism is particularly rich. Traditionally, it represents the vital energy, i.e. the soul. The azure in heraldic symbolism was called "sapphire and celestial colour". Gold and Azure also symbolize the sun and the Mediterranean which characterize the terroirs of the South of France where these wines are made.

This wine comes from organic farming certified "AB" and "Bee Friendly", a label that aims to protect bees and pollinators.

Winemaker's note

The different grape varieties are harvested separately for them to reach their optimum maturity, the Syrah being generally the earliest. Winemaking is regulated to respect the specific characteristics of the grape varieties and the capacities of the terroirs. The different grape varieties are de-stemmed and the maceration period lasts for about 3 weeks. The extraction work, thus the pumping over, the rack and return and the pigeage, is carefully adapted to each vat in order to favour a good extraction of varietal aromas and a silky and dense structure.

Tasting notes

This wine has a ruby-purple color. The nose reveals a beautiful depth of red and black fruit aromas, notably black currant and strawberry, underlined by spices and garrigue notes.

The palate presents silky and fine tannins. Or & Azur rouge has a spicy and fleshy character, a great fruity freshness and a spicy mineral structure.
