

PRIMA NATURE CHARDONNAY

IGP Pays d'Oc

Act for planet

Winegrower's note

Prima Nature is a range of without added sulfite wines that offer particularly pure, generous and intense aromas. Each cuvée, whose composition is reduced to the essential, expresses the character and taste of the fruit and the terroir. This wine is born from the knowledge of Gérard Bertrand and his enologists, who have a unique expertise in sulfites-free winemaking. The wines are grown according to organic standards which requires a high quality of the grapes. Prima Nature is also a vegan range for consumers who reject animal exploitation. Intense and fruity, Prima Nature will provide a unique experience of the terroir while respecting the environment.

Winemaker's note

The winemaking process is very complex, especially since no sulfites or other additives are used. The grapes are immediately pressed, with cold must settling in order to encourage the oxide compounds in the must to stabilize naturally. The alcoholic fermentation is very quick and takes place in a controlled environment. During the fermentation, the temperature is restricted to 18°C. The wine is purified by racking, before malolactic fermentation and a further racking phase at controlled temperatures. The wines are bottled relatively early, to preserve their full aromatic character. The wines continue to mature in the bottle.

Tasting notes

Endowed with a beautiful luminous robe with golden reflections, this cuvée reveals delicate notes of citrus fruits and white flowers. Round and harmonious, this cuvée offers delicious aromas of vanilla and gingerbread. This wine has elegance and lightness as well as a very nice balance.

Grape varieties

Chardonnay

Pays d'Oc

Narbonne

Serve at 12°C as an aperitif, with pesto pasta or vegetable risotto.
