#### PRIMA NATURE SYRAH ROSÉ

IGP Pays d'Oc

Act for planet

## Winegrower's note

Prima Nature is a range of wine without added sulfites which offer particularly pure, generous and intense aromas. Each cuvée, whose composition is reduced to the essential, expresses the character and taste of the fruit and the terroir. This wine is born from the knowledge of Gérard Bertrand and his enologists, who have a unique expertise in sulfites-free winemaking. The wines are grown according to organic standards which require a high quality of the grapes. Prima Nature is also a vegan range for consumers who reject animal exploitation. Intense and fruity, Prima Nature will provide you a unique experience of the terroir while respecting the environment.

# Winemaker's note

The winemaking process is specific and precise and meticulous given the fact that no sulfites or oenological inputs are used at any stage of the winemaking or bottling process. On reception, the grapes are immediately cooled to 8°C and pressed to remove the press juices. The juices are cold-settled in order to promote natural clarification of the musts and the elimination of oxidizable compounds by precipitation. The alcoholic fermentation is quickly started at temperatures regulated between 17 and 18°C. At the end of fermentation, the wine is racked in order to keep some fine lees which will be the anti-oxidant base of the wines during their maturing before bottling. This takes place early enough in the year to preserve the unique aromatic expression of this wine and to keep all its qualities over time.

### Tasting notes

This wine has a beautiful brilliant pink colour and reveals delicious aromas of blackcurrant and redcurrant on the nose.

The palate opens with delicate floral, rose and grapefruit notes, with a fresh, greedy strawberry finish.

This wine is very aromatic, remarkably light and well-balanced.

Serve at 12°C as an aperitif, with Mediterranean salads or grilled food.
