

# OUTDOOR *Heating* RANGE

2018

# The **Gasmate** *Heating* Range

Comfortable heat and warmth all year round.

The introduction of Gasmate Gas Patio Heaters into the Australian market in 1999 was the catalyst in the creation of what we now term 'Alfresco' living.

Gasmate Gas and Electric Radiant Heaters are a stylish and effective source of heat, providing plenty of warmth so you can extend your outdoor alfresco entertaining for more months of the year.

NATURAL GAS HEATERS

SILENT AND MAINTENANCE FREE OPERATION

**Convenient Use**

Comfortable radiant warmth, offering efficient and cost effective heating

**No Mechanical Parts**

No internal moving parts, creating silent and maintenance free operation

**Ignition**

RH200 Offers convenient automatic operation  
RH205 Features manual ignition

**Directional Heat Control**

Adjustable wall bracket

**Maximum output**

Natural Gas ready with a powerful 35MJ/h heat output

**Complete with Natural Gas regulator**

**FOR OUTDOOR USE ONLY**

Designed and approved for outdoor use

**Multiple Installation**

Ideal for use under verandas, alfresco areas and garages

RH205 - 684mm W x 494mm D x 409mm H

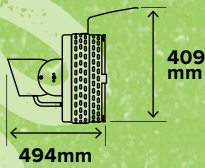

RH200 - 684mm W x 494mm D x 409mm H

ELECTRIC RADIANT HEATERS

SILENT AND MAINTENANCE FREE OPERATION

**Convenient Use**

Comfortable radiant warmth, offering efficient and cost effective heating

**Remote Operation**

Comes complete with convenient remote control with adjustable output and LED display

**No Mechanical Parts**

No internal moving parts, creating silent and maintenance free operation

**Safe use element**

Metal radiant heater – no glowing element

**Directional Heat Control**

Adjustable wall and ceiling bracket

**Extended Cord**

1.5M long power cord

**FOR SAFE OUTDOOR USE**

Designed and approved for outdoor and indoor use

**Multiple Installation**

Ideal for use under verandas, alfresco areas and garages

*Ideal for use under Verandas, Alfresco areas and Garages, they are the perfect solution to extend alfresco entertaining to the cooler months of the year.*

**EASY INSTALLATION, VARIABLE OUTPUT, LED DISPLAY, ALUMINUM BODY PLUS REMOTE CONTROL. ULTRA SLIMLINE DESIGN WITH ANODISED HEATING SURFACE, PERFECT FOR MODERN APPLICATIONS**

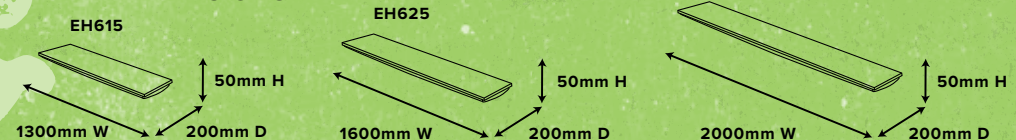

HEATING COVERAGE: THESE DIAGRAMS SHOW THE HEATING COVERAGE OF THE SOLARIS ELECTRIC HEATERS

MODEL	EH615	EH625	EH635
Max. Operating power	1800W	2400W	3200W
Variable output	600W / 1200W / 1800W	800W / 1600W / 2400W	1050W / 2100W / 3200W
Fitted power plug	10A	10A	**15A
Consumption	1.8 Kw/h	2.4 Kw/h	3.2 Kw/h
Running cost	\$0.89 p/h	\$1.18 p/h	\$1.57 p/h

\*Note: Running costs based on an average tariff of \$0.49c/kWh. Check with your local energy retailer for confirmation.  
 \*\*NOTE! MODEL 3200W REQUIRES A 15A POWER POINT TO BE INSTALLED BY A QUALIFIED ELECTRICIAN

**HEATER DIMENSIONS**

**Now with oxygen depletion system**  
Enhanced safety device which senses oxygen levels and switches off the entire unit when at a low level

**Improved safety**  
Includes safety "Tip-Over" switch that halts the supply of gas to the unit should it be accidentally knocked over

**FLAME FAILURE SAFETY SYSTEM**  
If the flame goes out, gas shuts off

**Rotary Direct Ignition**  
Simple ignition controls

**Maximum output**  
High capacity heating - 40MJ/h

**Complete with hose and regulator**  
No need to purchase additional components to start feeling warm

**FOR OUTDOOR USE ONLY**  
Designed and intended for outdoor use only

**Extended Use**  
Runs for 9 hours on a 9kg cylinder

**1350mm H x 540mm W**

*A practical alternative to a Patio Heater where ceiling clearances may be an issue and with loads of safety features.*
