Charcoal Grill & Smoker

Precise Air & Temperature Control

Superior Heat Retention

Durable

Built for Home Adventure

**A Purist's Case for  
the PK Grill,  
Simplicity, and Better  
Barbecue.**

The PK Grill is an American original, and the ideal vessel for the timeless marriage of heat, smoke, and food. By empowering users with precise air management and dependable temperature control (thanks to the natural properties of thick-cast aluminium) the grill simplifies the art (and elevates the success) of backyard barbecue.

## Versatile Charcoal Grill & Smoker

The PK is a world class grill and smoker. There is no need to choose between these two important functions or purchase separate equipment.

Whether you intend to grill at high temperatures for short periods, like burgers and hot dogs, or at low temperatures over longer periods, like pork shoulder and beef brisket, the cast aluminum PK will make you a backyard hero because it nails the landing on both. The nickel-plated steel hinged grid makes refueling for long smokes easy without having to remove the cooking surface or move the food. Get the best of both worlds with a new PK.

## GRILL+SMOKER

**4 VENTS ARE BETTER FOR BARBECUE**

## A Smart Capsule Design & Vent System

The PK360 is shaped like a bullet aimed at your taste buds and features 4 easy-to-use vents, allowing you to set up zones and precisely control airflow inside the capsule.

## PK360™ GRILL + SMOKER

Introducing the newest grill in the PK family - the PK360. Crafted with hand-poured cast aluminium for rustproof durability and superior heat conduction, this grill boasts a marine-grade stainless steel cooking surface, 40% larger than an 18-inch Big Green Egg. Its unique capsule shape excels in both direct high heat and low and slow indirect cooking, featuring a 4-point system for consistent heat with two radial exhaust vents and two cylinder air intakes. With removable shelves on each side, high-density moulded wheels for easy repositioning, and effortless transportation with its twist-off capsule from the control tower stand, the PK360 is the ultimate charcoal grill for versatile, top-notch cooking experiences.

## PK300's Construction Eliminates Hot Spots

Unlike other grills, the PK300 cook chamber is constructed entirely from aluminium. Aluminium conducts heat 4x more efficiently than steel, which means heat is dispersed evenly throughout the capsule. Say goodbye to expensive mistakes and hello to evenly cooked meats and veggies.

## PK300<sup>™</sup>

Introducing the PK300 - the New Original! With upgraded retro architecture, this grill embodies the spirit and cooking simplicity of the original PK Grill from 1952. Still built to last, the PK300 offers a taller working height, radial vents for precise air control, and a wider lid seal. Its versatile design excels in low/slow and hot/fast cooks, featuring a hinged cooking grid for easy coal management and efficient ash containment. Built to endure with a rustproof aluminium capsule and durable construction, the PK300 is the ultimate grilling companion. Optional features like the Tel-Tru thermometer and Flipkit™ enhance its customisation. Embrace the legacy and timeless pleasure of cooking with the New Original - the PK300.

## PKGO™

CAMP & TAILGATE GRILLING SYSTEM

Meet the compact and portable PK Grill with big grill energy! We've been perfecting one type of grill for almost 70 years, steering clear of the fads and staying focused on the purity of cooking outdoors over a real charcoal fire. Our priority has been how to make the PK Grill work better, not look or act different. And we haven't done half bad: our new 2020 PKGO is smaller, lighter and more functional than any other PK Grill. It's distinctive cast aluminium capsule stands apart, as recognisable in a crowd as ever. Nobody in the world makes a more unique or durable charcoal grill than we do because nobody has been perfecting the same simple formula for as long.

## Spot The Franklin Difference

With a convenient belly bar to hang towels and tools, a speed rack for quick access to sheet pans and ingredients, and ample shelf space with two big, roomy cast aluminium shelves, you have everything you need at your fingertips. The shelves lock the capsule in place when deployed and conveniently fold down when not in use, providing the ultimate convenience for your grilling adventures.

## PK300AF™ DIMENSIONS

# PK

## PK300AF™

When Aaron and Stacy Franklin opened up a small barbecue trailer in Austin, Texas in 2009, they had no idea what they had gotten themselves into. Since then, Franklin Barbecue has become the most sought after smoked meat in the land. As a self-proclaimed tinkerer known to obsess over the precise details of heat efficiency and cooking functionality – Aaron has found multiple ways to share his passion and knowledge of the smoked arts. Aaron discovered the Original PK grill way back in the day, and fell in love with its design and performance. Over the years, Aaron's constant engagement with Original PK led to a friendship with the folks behind the brand. Thus, a hot-rodded PK was born, resulting in this Special Edition PK+Franklin Grill.
