Data for use as a starting point in matching rod to caster's style

Data derived using RIO Steelhead Scandi and Skagit heads, RIO Switch, RIO Outbound lines,  
and, some custom-made heads.

For Scandi and Skagit heads use with a 10' - 15' polyleader

MOW 'cheater' tips required to make Skagit head + cheater equal to 3 to 3.5 times rod length
