## MINI HUMIDIFIER

OWNER'S MANUAL

### Attention

Do not use this unit WITHOUT water

MODEL : KS-JSQ01

PLEASE READ AND SAVE THESE INSTRUCTIONS

### IMPORTANT INSTRUCTIONS

PLEASE READ AND SAVE THESE IMPORTANT SAFETY INSTRUCTIONS.

1. Read all the instructions before using this mini humidifier.
2. It is necessary to choose the right power adapter to match the voltage of the machine: DC-5V.
3. Please pour pure water into the container to guarantee the fog is clean and healthy, don't use hot water or it will damage the machine.
4. Please don't use sharp object to touch the surface of the atomizer plate to avoid damage to it.
5. Please do not make the machine work without water which it will shorten its service life or damage the machine.
6. If the power cord is damaged or under other unusual condition, please send it to professional staff to repair, do not repair it by yourself.
7. If you don't use this machine, no matter in short or long time, please pull out the plug and take the machine out of water, dry it up and put it at an appropriate place.
8. Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities. Contact your

local government for information regarding to the collection system available up and put it at an appropriate place.

9. If electrical appliances are disposed in landfills, hazardous substance can leak into the groundwater and get into the food chain, and damage your health.

### PART FIGURE

### OPERATION INSTRUCTION

1. Fill the cup with water, then put the humidifier into the cup.
2. Please connect the USB plug end to the right power adapter, or put the USB plug connect to the computer when it is on. The light will be in red, the machine is on standby.
3. Press on/off switch key, the light will turn blue, the machine starts to work.
4. A new machine or a machine not used for long time usually needs 3 minutes to release mist because the cotton bar needs some time to absorb water. When the cotton bar has got enough water, it will conduct water to the atomizer plate and then the mist will turn out.
5. We suggest for a new machine, or a machine not used for long time, please take out the cotton bar and put it into water for about 30 seconds. After the cotton bar has got enough water, put it back into the machine and turn on the machine.

6. If you need to stop humidifying, press the on/off switch key, the light will turn red, the machine is on standby. If you need to power off, just pull out the USB plug.

### TROUBLE CLEARING

When the machine is in trouble, please check several points as below:

1. Please check if the power adapter has been connected to the machine.
2. Make sure if use the right standard power adapter.
3. Please make sure if there is water in the container or if the water level can reach the cotton bar, if it does not, please add more water into the container.
4. Please check if the atomizer plate is blocked, if yes, using cotton bud to dip water and slightly clean it.
5. Check if the cotton bar has been polluted or aging seriously, if yes, please replace the cotton bar and clean the water absorption hole at the bottom.

### CLEANING AND MAINTENANCE

1. Please use soft cloth to clean the machine, don't use petrol or other organic solvent. Please do not fill water into the head part. It is forbidden to put the whole machine into water.
2. After using for 30 times or 30 days, please clean it according to this way: Turn it off and pull out the power cord, then get it out of the water container and open it, take out the cotton bar and squeeze it. Put the cotton bar to a dry and ventilated place, store or use it after it is naturally dry. Please use soft brush to clean the water absorption hole.
3. When clean the machine surface, use soft cloth to dip the diluent neutral gentle solvent and wash it.
4. Store the product in a clean and dry place.
