

Philips X-tremeVision
car headlight bulb

Type of lamp: H1

Pack of: 2
12 V, 55 W
More light

12258XV+S2

Take performance to the X-treme

Up to 130% brighter light

Philips X-tremeVision car bulbs are among the brightest you can buy. They outshine most other car lamps with up to 130% more brightness and a superior beam length. So you see further, react faster and drive safer.

High amount of light, high performance

- See further and react faster with up to 130% more brightness
- One of the brightest bulbs: ultimate light performance
- The safest road-legal headlights

Increased brightness

- Significantly whiter light to improve comfort and safety
- Great contrast for a comfortable drive
- Exceptional beam quality and performance

Best-in-class lifetime

- Performance means more light and longer lifetime
- A lifetime of safety so you can see and be seen

PHILIPS

car headlight bulb
Type of lamp: H1 Pack of: 2, 12 V, 55 W, More light

Highlights

Significantly whiter light

The bright white light (3.500 K) is significantly whiter than standard headlamps. The Philips patented gradient coating technologyTM produces a more powerful light. So you can enjoy one of the brightest lighting performances and a highly comfortable night driving experience.

A lifetime of safety

Every potential failure of a spare part is a risk for you and your vehicle. This is especially true for headlights. Every broken headlight lamp reduces visibility and safety for you and the oncoming traffic. Philips X-tremeVision is optimised for a long and reliable lifetime. So you can see and be seen for longer than with any other high-performance lamp.

Exceptional beam quality

With a combination of more light and increased colour temperature, Philips X-tremeVision qualifies as one of the best performance beams in the halogen segment.

Extra light, extra lifetime

Philips X-tremeVision headlights are made for outstanding performance, producing up to 130% brighter light, without compromising on the lifetime. With up to 450 hours*, Philips X-tremeVision's lifetime is significantly higher than competitor solutions in the more light category. (*H4 and H7 tested at 13.2V standard voltage)

Great contrast drives comfort

The increased colour temperature in Philips X-tremeVision headlights (available in H1, H4 and H7) allows your eyes to focus better and perceive contrasts in the far distance. This makes driving after dark a far more comfortable and safe experience.

See further, react faster

Perfect illumination is especially important in the distance – usually between 75-100 metres in front of your vehicle. Philips X-tremeVision boosts your visibility with up to 130% more brightness. This helps you recognise obstacles

37166628

and any potential dangers earlier than with most other halogen headlight lamps.

One of the brightest bulbs

With its optimised high-precision filament geometry, up to 13 bar high-pressure gas filling, high-precision coating and high-quality UV-Quartz glass, Philips X-tremeVision headlights set a new milestone in automotive lighting. They are engineered for the ultimate performance and uncompromising visibility.

The safest legal car lights

Philips X-tremeVision is by far the safest, easiest and most efficient way to upgrade your car headlights within legal parameters. The lights are fully ECE certified.

Specifications

Product description

- Technology: Halogen
- Type: H1
- Range: X-tremeVision
- Application: High beam, Low beam
- Homologation ECE
- Base: P14.5s
- Designation: H1 X-tremeVision

Electrical characteristics

- Voltage: 12 V
- Wattage: 55 W

Ordering information

- Order entry: 12258XV+S2
- Ordering code: 37166628

Packaging Data

- Packaging type: S2
- EAN1: 8727900371666
- EAN3: 8727900371673

Packed product information

- Pack Quantity: 2

- MOQ (for professionals): 10
- Height: 13.3 cm
- Length: 11 cm
- Width: 5.3 cm
- Net weight per piece: 6.0 g

Outer pack information

- Gross weight per piece: 0.44 kg
- Height: 13 cm
- Height: 12.0 cm
- Length: 28.6 cm
- Width: 14.1 cm
- Gross weight per piece: 445 g

Marketing specifications

- Expected benefits: More light
- Product highlight: Up to 130% more brightness

Lifetime

- Life time: 350 h

Light characteristics

- Colour temperature: 3500K K
- Lumens: 1550 ±15% lm

Issue date 2018-03-16

Version: 6.0.1
