Pure and bright white light to defeat darkness
Intense whiter light improves driver concentration

Philips Xenon WhiteVision plus lamps create an intense white look for your car and produce brighter, more uniform white light on the road. The perfect choice for Xenon headlights to match the look of LED lights.

Perfect match with other LEDs on your car

- Ultimate white effect to match other LEDs on your car

Up to 5000 Kelvin white light on the road

- Crisp, pure white beam cuts through darkness

Very intense homogenous bright white

- Greater contrast for improved visibility and safer driving

Up to 120% more vision

- More powerful light beam for enhanced vision

Original equipment, 100% road legal

- Philips car lamps are highly resistant
- 100% intense white light, 100% road legal
- Philips is the choice of major car manufacturers.

Highlights

Ultimate white LED effect

Philips Xenon WhiteVision plus headlight lamps are the perfect choice for drivers who want a crisp white look for their headlights – similar to that of LEDs. With the same color temperature as LED lights, Xenon WhiteVision plus is the ultimate upgrade for your Xenon headlights.

Greater contrast, safer drive

It is vital to be able to quickly spot and identify road markings and signs when driving in the dark. With the Xenon WhiteVision lamps you get an intense, uniform white light. Coupled with a high color temperature, the headlights provide stronger contrast and better reflections from objects and signs. And you'll enjoy a more comfortable and safer driving experience. The fact is many road traffic accidents are caused by overtired drivers losing concentration. This whiter light helps you maintain concentration and stay alert when driving at night.

Up to 120% more vision

This powerful white headlamp provides you with more intense light. Philips WhiteVision plus features a high-performing light, creating up to 120% more visibility compared with the legal minimum standard. This enhanced brightness improves your vision for greater control of your vehicle.

Intense but legal light

Although brighter lights help you see better, if they dazzle oncoming drivers it makes the road less safe for you. The ECE-certified Xenon WhiteVision plus provides road-legal intense

white light, with a headlight lamp color that's harmonized with LED lights. The resulting light offers excellent visibility for safer driving, without irritating other drivers.

High quality, high resistance

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of early failure. Able to withstand severe thermal shock, Philips UV-Quartz glass car lamps allow more pressure inside the lamp, which can then produce a more powerful light to improve driving visibility. Along with a special anti-UV coating technology to protect the headlights from harmful ultraviolet radiation, you can be sure these lamps are built to last.

Car manufacturers' choice

Philips is renowned for technologically advanced automotive lighting, introducing innovations that have become standard in modern vehicles. One in every two cars in Europe, and one in every three worldwide, is equipped with Philips lights, making it a favored choice for all car manufacturers.

Crisp, pure white beam

With a color temperature of up to 5000 Kelvin, Philips Xenon WhiteVision lamps illuminate the road ahead with a crisp, pure white beam that cuts through the darkness. Instead of straining to see the road ahead, you'll enjoy a safer, more exciting drive. With Philips automotive lighting, driving at night doesn't have to limit you.

Specifications

Packaging Data

Packaging type: X2
EAN1: 8727900377774
EAN3: 8727900377781

Electrical characteristics

Voltage: 85 V
Wattage: 35 W

Lifetime

Life time: B3/Tc = 1500/2500

Light characteristics

Color temperature: up to 5000k
Lumens: 3000 ±250

Ordering information

Order entry: 85126WHV2X2
Ordering code: 3777428

Outerpack information

Height: 14.5 cm
Length: 32.1 cm
Width: 12 cm
Gross weight per piece: 1.126 kg
Net weight per piece: 179 g
