

Ring Sizing Guide

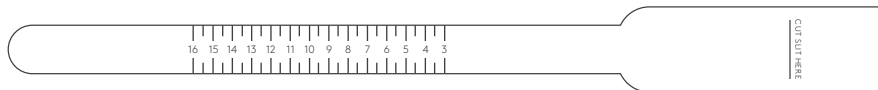

IMPORTANT NOTE BEFORE YOU PRINT

- Before printing this ring sizing guide, make sure that page scaling is set to 100% in your printer settings area.
- Compare your ruler to the ruler below, the marks should match.
- If the measurement isn't accurate, please review your print settings again. Be sure you are printing 100% scale.

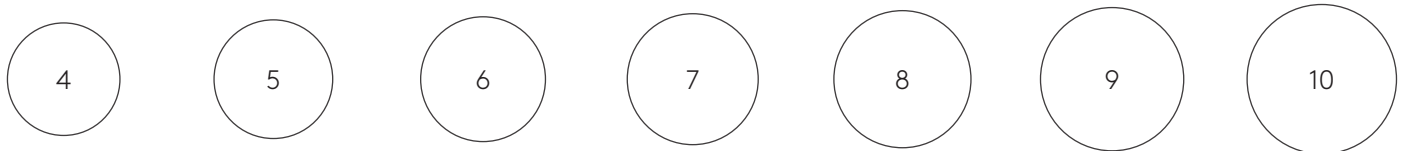

METHOD 1

Carefully cut the paper sizer below, and add a slit where marked for the ruler to slide through. Wrap the sizer around your finger with the numbers facing out. Pull to tighten to get a snug fit where you'll wear the ring.

METHOD 2

Place a ring that fits you on the circles below. For proper fit make sure that the black circle is visible within your ring. That will be your ring size. To double-check, place your ring on the next larger size and you should not see the entire black circle.

If you are between sizes, we recommend sizing down to the nearest full size.
For example, if you are a 6.5, size down to a 6.
