

# BOAT TYPE 2X2-

Rowing as a double or pair is the ultimate test of the bond between two athletes. Having developed our range of pairs and doubles with some of the greatest to ever row, Sykes boats are built for speed but also to enable maximum co-ordination between rowers.

Built for efficiency down the course saving up for that sprint home, numerous Australian crews have used a Sykes boat to become World and Olympic champions.

## BOAT TYPE 2X2-

Mould	Length (m)	Weight (kg)	Weight (lbs)
229	9.32	55-65	121-143
214	9.65	60-80	132-176
223	9.87	80-100	176-220

Construction	Benefits
Honeycomb <b>Carbon</b> Sandwich Laminate	Maximum Performance
Honeycomb <b>Kevlar</b> Sandwich Laminate	Performance with Resilience

Mould	Medal	Competition
223	GOLD M2 -	World & Olympics
229	GOLD LW2X	World Champs

In Barcelona 1992, the Australian men's double won the Olympic Gold Medal, and then Mould 223 won Gold in the men's pair in 2004 and 2008. The Sykes Mould 229 has twice won the World Championships in the LW2X category. We hope to continue achieving similar results with new designs in the coming years.
