

BOAT TYPE 8+

Utilising the latest technologies and computer programs, Sykes' eights boat range features innovative engineering, significant rigidity increases, stronger and more modern deck styling and ultimately faster boats, while still maintaining the comfortable and stable Sykes shape.

BOAT TYPE 8+

Mould	Length (m)	Weight (kg)	Weight (lbs)
857	17.2	60-75	132-165
858	17.4	80-90	176-198
828	16.9	90+	198+

Construction	Benefits
Honeycomb Carbon Sandwich Laminate	Maximum Performance
Honeycomb Kevlar Sandwich Laminate	Performance with Resilience

Mould	Medal	Competition
857	GOLD SG8+	National, HOR
829	BRONZE M8+	World U23 Champs

Since our first eight's design won the King's Cup in 1973, Sykes designs have been the dominant force at Australian National Championships. M857 has proved very successful on the national stage for Schoolgirl First Eights and Year 10 Schoolboy Eights. Our latest designs, M857 and M858, have been re-engineered to include a faster and more stable hull shape, and a stiffer and lighter construction. The hull has high UV protection in the gel coat and its construction has been strengthened with a thicker Nomex honeycomb saxboard.
