Made in USA

Sure-Foot's MASTER STOP™ Aluminum Tape Treads are a quick, permanent and attractive solution for stair renovation projects.

Master Stop® Tape Treads are an eye catching, resilient, high quality aluminum extrusion that is inlayed with any of our anti-slip tape colors. These treads are used on renovation projects to deliver maximum safety and durability while providing a look that compliments todays building designs. Master Stop® Tape Treads are created using heat treated, exterior grade 6063 T5 aluminum, inlayed with any of our anti-slip tapes. Available in 2.75" & 7.5" depth's and lengths up to 144", this product will meet and exceed OSHA and ADA recommendations for slip resistance on wet or dry surfaces.

2.75" with tapered transition ramp (Nose, single cavity) Overall thickness: .18"

Shown in 19-BLACK and 08-SAFETY YELLOW

Shown in O3-GREY and 15-SAFETY RED

7.5" with tapered transition ramp (Tread, double cavity) Overall thickness: .18"

MASTER STOP™ Aluminum Tape Treads Advantages

Treads can be inlayed with any of the Master Stop® Anti-slip tapes

Our 2.75" tread is single cavity with one tape of your choice

Our 7.5" tread is a double cavity with two tapes of your choice

All treads come with pre-drilled counter-sunk holes

Before tread installation, surface must be level, smooth, dry and clean of debris

Commercial adhesive and fasteners should be used when installing the treads

With 4 distinct blacks and 12 assorted colors (including glow-in-the-dark), customizing to your exact needs is simple. The full line of Master Stop tapes is available for inlay—providing a variety of colors, grit materials and custom capabilities.
