

HOW TO USE

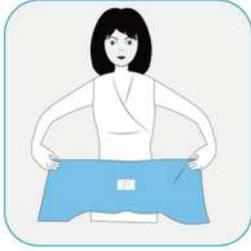

RELAXED PARENT

BABY WRAP

Relaxed Parent Stretchy Wrap is a perfect carrier for a newborn baby. It is very soft and mouldable. It is a perfect option for parents who are just learning babywearing, as this wrap is very easy to use. Since it is a one size fits all wrap, you can safely purchase it if you are unsure of the size that will suit you. Relaxed Parent Stretchy Wraps are made from premium quality cotton, to give a soft and strong fabric. These stretchy wraps can be used from the day one till your baby is 16 kg.

HOW TO TIE BABY WRAP

1. Find the logo label in the middle of the wrap & put it on your belly. Wind wrap around your waist & put your arms backwards.

2. Cross the wrap behind your back and exchange your arms.

3. Put your one hand up and put the wrap over your shoulder.

4. Now do the same with your second hand. Make the cross "X" on your back.

5. Pull both ends of the wrap through logo label part and cross them.

6. Wind ends of the wrap around your hips backwards.

7. Cross the wrap behind your back and wind around your hips forwards.

8. Tie a double knot either on your side or in front of you or on your back.

HOW TO PUT YOUR BABY IN WRAP (for babies who can not sit alone)

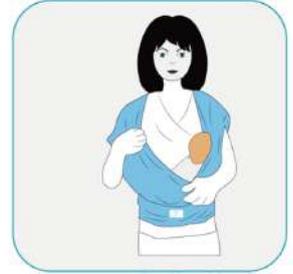

1. Find shoulder part of the wrap which is closer to your body. You will place baby into this pocket.

2. Carefully put baby's bottom into the pocket. Make sure there is fabric between you and baby.

3. Spread fabric over baby's trunk and bottom. Keep holding your baby.

4. Put baby's legs into the second shoulder part. Spread fabric over baby's legs, bottom and back.

5. Find logo label part and pull this part of fabric up and over baby.

6. Rearrange the fabric. Make it comfortable for you and baby. It should not be too tight.

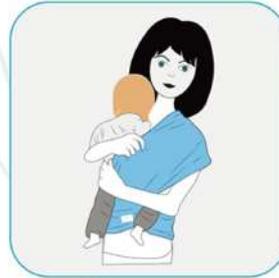

HOW TO PUT YOUR BABY IN WRAP (for babies who can sit alone)

1. Find shoulder part of the wrap which is closer to your body.

2. Hold baby with one hand on your shoulder. Put baby's first leg through the shoulder part with your second hand.

3. Spread the fabric from baby's bottom to knees. Now hold baby with your second hand.

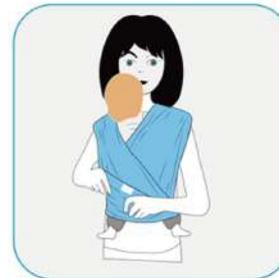

4. Put baby's second leg through the other shoulder part. Keep holding your baby.

5. Spread the fabric and cover bottom and shoulder of your baby.

6. Find logo label part and put baby's legs through this part.

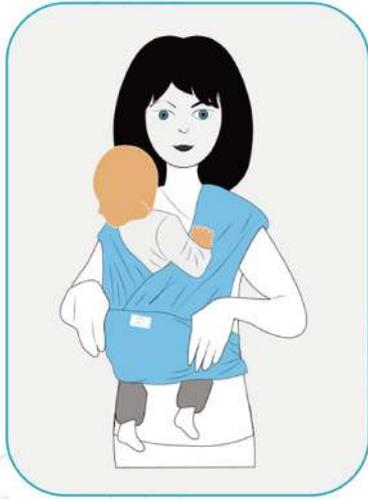

7. Keep pulling this part of fabric up and over baby's back and shoulders.

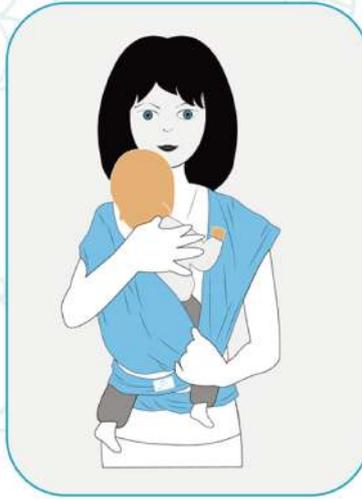

8. Rearrange the fabric. Make it comfortable for you and baby. It should not be too tight.

HOW TO GET BABY OUT WITHOUT UNWRAPPING

1. Pull the logo part down under baby's bottom

2. Open the fabric, supporting baby as you do this. Newborns will need addend head support.

3. Lift your baby straight up and out of the Wrap.

⚠ WARNING! IMPORTANT! READ CAREFULLY AND KEEP FOR FUTURE REFERENCE.

- Read and follow all printed instructions and view instructional video (https://www.youtube.com/watch?time_continue=1&v=zITulgDlyHU) before use.
- Check for ripped seams, torn or damaged fabric (if any) before each use. If any damages are found, stop using baby wrap.
- When using the baby wrap monitor your child.
- Always check to ensure that all knots and adjustments are secure.
- Always double knot.
- Ensure that the baby is safely positioned in the wrap as recommended in instructions.
- Never leave a baby in a baby wrap that is not being worn.
- Check on the baby often. Ensure that the baby is periodically re-positioned.
- Never use a baby wrap when your balance or mobility is impaired because of exercise, drowsiness, or medical conditions.
- Never place more than one baby in a baby wrap. Never use/wear more than one baby wrap at a time.
- Never use baby wrap while engaging in activities such as cooking and cleaning which involve a heat source or exposure to chemicals.
- Never wear baby wrap while driving or being a passenger in a motor vehicle.
- For low birth-weight babies and children with medical conditions, seek advice from a health professional before using the product.

⚠️ WARNING

FAILURE TO FOLLOW MANUFACTURER'S INSTRUCTIONS CAN LEAD TO DEATH OR SERIOUS INJURY

⚠️ SUFFOCATION HAZARD

Babies younger than 4 months can suffocate in this product if face is pressed tightly against your body. Babies at greatest risk of suffocation include those born prematurely and those with respiratory problems. Ensure that the infant's face is uncovered, clearly visible and free from obstructions at all times. Ensure that the baby does not curl into a 'C' position with chin resting on or near the chest. This position can interfere with breathing even if nothing is covering the nose or mouth. Never use this carrier with babies smaller than 8 pounds without seeking the advice of a healthcare professional

⚠️ FALL HAZARD

Leaning, bending over, or tripping can cause baby to fall. Keep one hand on baby while moving.

TIPS

- Practise with a doll or bag of flour first
- Practise on/around a soft surface
- Don't start or continue when your baby is tired and frustrated
- Use a mirror
- Go see a baby-wearing consultant for advice or a training
