Vanessa

2 Minute Instant Wrinkle Reducer

This product exceeded my expectations and leaves no white chalky residue like others I have tried. For the past few years, I have suffered from puffy eyes. This product gives me the confidence of smoothing out all puffiness under my eyes and making the loose skin appear tight and lifted. Word of caution, follow the directions for best results and make sure to not put any eye cream or makeup under or over this product. I'd love to hear your feedback at: vanessa@beauty-depot.ca

2 FOR \$60 | SAVE \$11.50

Simply apply to eye wrinkles, crows feet or other areas - wait roughly two minutes - and that's it!

PodoExpert Dry, Cracked Skin Foam

This is a product I can not live without, especially during sandal season or when I frequently wear bare feet in the house. I feel like my heels in particular get more cracked in the summer. I started using this product regularly and can't believe the drastic improvement of my heels and feet in general. I can't stress enough how well this product works. After taking a Podo Expert course, I came to understand the science behind the technology and how their products are truly differentiated relative to other foam brands in the market. This is a must have for your clients! TEI now offers a complimentary online Podo Expert product knowledge workshop.

125ml \$14.45 | SAVE 15% **300ml \$28.90** | SAVE 15%

Repairs and regenerates the protective skin barrier and hydrates the skin.

Silvia

Esse Ageless Serum+ (30 ml)

It is so hard to choose just one product out of the many that we offer. I love all of our skincare but my favorite right now is ESSE Ageless Serum. The feel, smell and results are incredible and it is a daily must have. It contains probiotics and skin extracts that improve skin texture and assists with reducing pigmentation. To assist with aging gracefully, the Ageless Serum is a necessity!

\$100 | SAVE \$20.95

Contains a range of probiotic and plant extracts that improve skin structure and reduce pigmentation.

- · Screen feature's adjustments

Versalis Peel Microdermabrasion Device

\$6595 | SAVE \$595

A new, powerful and affordable microdermabrasion device that offers the versatility functions of the crystal-free system and the highly pure corundum crystal application, which can be precisely performed thanks to our unique Turbo Flow Projection System. The Turbo Flow System propels crystals onto the skin, safely and evenly, while keeping a circular, vortex-like motion. This offers a constant linear and rotational velocity, without causing any discomfort or irritation of the skin.

Vortex Peel Microdermabrasion Device

\$9995 | SAVE \$595

Designed to perform a high precision peeling, the Vortex Peel is a reference in the category of professional microdermabrasion devices. Its powerful motor combined to the Turbo Flow system allows to clear the epidermis of dead skin to reveal a younger looking, smoother skin. The treatment leaves the pores tightened, the wrinkles smoothed, and the skin bright. The dark spots are minimized for a more even complexion.

Certification: Diploma - CIDESCO Aromatherapy Massage & Spa Treatments

Includes: Textbook, lecture notes, Starter Aromatherapy kit (Value \$400)

With the renewed, widespread client interest in wellbeing and stress management, now is the perfect time to incorporate aromatherapy treatments into your repertoire of skills. Aromatherapy helps balance the mind and tonify parts of the body and can be incorporated into skincare, nail care, body treatments, massage, and mani-pedi treatments. Aromatherapy increases the value of your services and makes you an expert upon whom your clients can rely for reliable, science-based advice in the use of essential oils for the support of their wellbeing.

The 440-hour CIDESCO Aromatherapy Diploma course is of the highest caliber in beauty & spa and will allow you to differentiate yourself with a niche skill that answers the current market trends. Full participation qualifies you to sit for the prestigious CIDESCO Aromatherapy Diploma examinations. You will learn to apply the wellness principles of aromatherapy to spa, massage, and skincare in a professional spa or beauty business, as well as acquire in-depth knowledge of the true benefits of essential oils for the safest and most effective aromatherapy treatments possible.

"The CIDESCO Aromatherapy diploma provides graduates with a respected and internationally-recognized credential in aromatherapy, and thoroughly prepares practitioners to provide insightful, effective, and safe aromatherapy treatments."

- Jeannie Sim, Examiner & Principal Tutor

Exclusive New Program!

Join Internationally Acclaimed, Oncology Advanced Esthetics Founder, Pioneer, Author & Educator, Morag Currin of Oncology Training International

Certification: Oncology Esthetics

Includes: Oncology Manual, Oncology kit with textbook (value \$450)

5 Days: 10:00am - 4:00pm

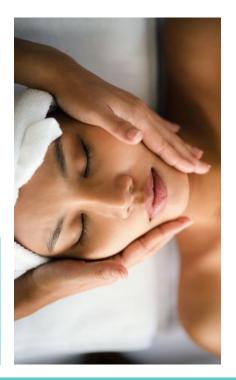

For too long, our industry has shielded away from addressing all the needs of people living with cancer. Ignorance and a lack of knowledge has impeded salon/spa professionals from helping these cancer fighters and survivors – the very people who may benefit most from salon/spa services. When you consider as many as four in ten people will get cancer in their lifetimes – there is a demand based on the staggering reality of 23.6 million potentially new cases of cancer each year by 2030.

The training's offered by Oncology Training International (OTI) have been revolutionizing the salon/spa industry since 2007; and OTI continues to be a driving force to change this approach. People living with cancer and other comorbidities need to be afforded the most current information for optimum benefits.

"I have never been exposed to cancer so this topic has always been one to avoid due to lack of knowledge. After taking this course, not only have I gained knowledge, but confidence when it comes to cancer and working with people going through this awful disease." H.T. London, Ontario

Repêchage® Kit

ONCOLOGY ESTHETICS TRAINING

The Oncology Esthetics Basics Training is a comprehensive, advanced training for Estheticians in-training or Estheticians in-practice that are motivated to make a positive difference and experience to individuals diagnosed with cancer. This is a course designed to provide an esthetician with knowledge on the pathophysiology of cancer, the various treatments of cancer, and the effects of cancer and its treatments on the skin and body. The training explores both the physical and emotional effects of cancer. The candidate that chooses this program is someone that wants to learn to adapt their existing esthetic services to accommodate the oncology population during active cancer treatment and during recovery. The candidate may have been through cancer treatments themselves, been a caregiver to someone going through treatments, or have family or friends that have experienced cancer. This course mainly focuses on basic skin care and facials, however with the knowledge provided in this course, an esthetician will be able to apply the information to various esthetic treatments.

This program will be a combination of theory and practical application. Students will first practice some techniques/modifications to treatments required for cancer survivors on each other for the first 3 days.

*Models will then be required on day 4 or 5 in the afternoon (time to be determined on the first day of the program). Your model will need to be a cancer survivor (someone who has been through treatments or is currently going through treatments).

To achieve certification in this program, students are required to attend the full 5 day class,

as well as complete assignments that will be submitted for review once the 5 day course is complete. These assignments will include a case study on a cancer survivor, an open book exam, and a 1500 word research paper on a topic of your choice related to oncology esthetic care (more detailed information to be provided in class).

Pre-requisites: certification in facials (must have knowledge of the skin, skin types, skin conditions, lymphatic system); Moodle pre-courses/tests done at least one week prior to attending class (these pre-course requirements will include review of the skin, skin types/conditions, lymphatic system).

"Jam packed information given, that I could not ever do on my own. All the important matters, concerns covered. Any question you have, is answered!" S.P. Niagra on the Lake, Ontario

Meet Your Instructor ANGELA ROWLAND

Angela's career started first in health care. She graduated in 2004 with a Bachelor of Science in Nursing and worked as a Registered Nurse for 14 years, with the bulk of those years spent as a Diabetes Educator. After 14 years she made the decision to transition to the world of esthetics. She trained in clinical esthetics and worked awhile in the spa industry before going back to school yet again to get her esthetics diploma from The Esthetic Institute of Calgary. Angela also holds a certification in Oncology Esthetics as well as Advanced Pedicures and provides safe and approved

Oncology treatments at The Esthetic Institute Spa. Working with people is all she has ever wanted to do and is honoured to be an educator at TEI.

THE ONYFIX NAIL CORRECTION SYSTEM: PAINLESS | INDIVIDUALLY ADAPTABLE | INNOVATIVE

The Onyfix® Nail Correction System is a versatile and innovative product that enables completely painless treatment of almost all forms of involuted and ingrown toenails.

The foot care expert adapts the system individually and fixes it to the patient's nail, which is then brought back into its natural shape as it grows. The whole process is pain-free, during application and throughout the entire treatment!

LIVE ONLINE TRAINING WEBINAR 6:00pm - 8:00pm (MDT) February 28 | May 1 | July 9 | September 19 | November 24

Login details to follow | Includes Theory Assignment (2 weeks before Webinar) Kit Included: Value \$615!

THE BENEFITS OF ONYFIX®

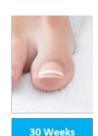

- Pain-free treatment
- Rapid pain alleviation
- Corrects the nail through physiological nail growth
- Effective without exerting force on the nail
- Combinable and individually adaptable system
- Particularly suitable for diabetics
- Nail polish can still be used
- No restrictions on patient activities (incl. swimming/sauna)

Start

NAIL CORRECTION WITH ONYFIX®

The principle of the Onyfix® Nail Correction System is to bring an involuted nail back into a natural shape through normal growth without any tension or pain, following more or less proximal application of the Onyfix® Nail Correction System using a hardened composite. Your foot care expert first prepares the nail prior to application. The Onyfix® composite is then spread on the nail and shaped correctly. After the composite has hardened, the nail correction system fixes the nail in its proximal shape without any tension.

The Onyfix® Nail Correction System ensures that this shape is retained as the nail grows naturally. When treatment has been completed successfully, your foot care expert removes the Onyfix® Nail Correction System, a process that is also pain-free.

THE COMPONENTS

The Onyfix® Nail Correction System consists of Onyfix® Primer, which acts as an adhesion agent, as well as Onyfix® Soft composite and Onyfix® Hard composite. Onyfix® Soft composite is suitable for small, thin and children's nails. Onyfix® Hard composite is used for severely malformed nails, particularly on D1. In order to use the nail correction system to the best possible effect, you will need to roughen the surface of the nail, a cleaning agent to degrease the nail, cotton swabs to apply the primer, a metal spatula to shape the composite, curved cannulas for Onyfix® Soft composite, an LED blue light to polymerize the composite, and a ceramic bur or large toe nail nipper to correct or remove the nail correction system, if needed.

Learn about a revolutionary way to treat ingrown toenails for your clients without pain and without surgery, effectively correcting the shape of the toenail creating relief.

Course Outline:

Prepared exclusively for pedicure/advanced pedicure technicians, foot care nurses and Podiatry/Chiropody specialists, this 2-part certification program provides both a theoretical instruction and practical component for the certification of the Onyfix® Nail Correction System.

Theoretical Portion (Online with Meredith Thompson):

- Understanding existing treatments for nail correction
- Understanding mode of action, efficacy and application methodology of the Onyfix® Nail Correction System
- Case studies of real life clients and applications to understand when/how to use the Onyfix® Nail Correction System

Practical Portion (Option: In Class or Online Live Webinar with Jacky Tattrie):

- See the application of the Onyfix® Nail Correction System up close
- Visual training for the correct usage and application of the Onyfix® Nail System
- Reiteration of the theoretical portion and practical application

Certification Portion:

- Verification of correct usage and application of the Onyfix® System by submitted quotas
- Upon satisfactory application, the trainee will receive a certificate.
 (Only people with certification will be able to buy Onyfix® products)

CEE CONTRACTOR OF THE PARTY OF

INCLUDES

Includes:

- Online Theory Lecture and Prep Course (released two weeks in advance of the practical live webinar)
- Scheduled Online Live Virtual Webinar (includes live demo of Onyfix procedure) + Q & A Session
- Onyfix® Professional Starter kit (Value \$635) 1 x Onyfix® Kit (Blue Kit) with SOFT, HARD & PRIMER

Meredith Thompson

Meredith Thompson is a CIDESCO-certified Esthetician and has been active in various areas of the beauty industry for over 10 years. In addition, Meredith received the designation of Certified Podologist from the Canadian Examining Board of Health Care Practitioners in 2008, and is an enthusiastic advocate and practitioner of advanced pedicuring and preventative foot care. In 2012, Meredith returned to

University, and she graduated from the University of Calgary with a Bachelor's Degree in Cellular, Microbial, and Molecular Biology in 2016.

Jacky Tattrie

Jacky began her career in the beauty industry in 1982. She received her Cosmetology diploma in 1984 and has continued to further her education by taking countless advanced courses; including Advanced Pedicuring, specializing in toenail reconstruction, treatment of foot conditions, and diabetic foot care. In addition, she specializes in the most current proficient techniques in Waxing, Artificial Nails and Skincare modalities. Jacky

has been an instructor at The Esthetic Institute since 2014 and recently has been selected as the Department Head for TEI's Full Esthetic Program. As she has experienced many exceptional and influential instructors, it is her commitment to pass the same experience to each one of her students.

CIDESCO Beauty & Spa Management Diploma Program \$3495

THE MUST HAVE PROGRAM & CREDENTIAL THAT EVERY ESTHETICIAN SHOULD HAVE

Upcoming Intakes:

JANUARY 30, 2024 - MAY 14, 2024 MAY 28, 2024 - SEPTEMBER 17, 2024

ALL SESSIONS ONLINE! Program supported with live, weekly webinars!

TEI is the only school in North America to offer this internationally recognized business management program online!

*This offer is exclusively available to students registered in a diploma program at TEI.

IS CIDESCO DIPLOMA IN BEAUTY & SPA MANAGEMENT THE SOLUTION YOU'VE BEEN LOOKING FOR?

Do you manage a beauty or spa business and would like to acquire a formal credential in fundamental managerial skills and practices?

Would you like to prepare yourself for a beauty or spa management employment position in the future?

Are you a home-based business owner and are looking to expand your business operations?

Are you an esthetician or spa therapist who would like to open your own business one day?

Are you a business-person interested in entering the beauty and spa market?

This 320-hour, entirely online program will teach you how a beauty or spa business is effectively and efficiently managed. The program offers busy business-people a flexible format to get the education they need, and still receive live support from experienced and caring educators.

Trena Laine

Our Makeup Artist program is available via Trena Laine's Professional Makeup Artist online training platform and allows the convenience of learning the first volume of your education through extensive theory and practical videos combined. The online component consists of 6 detailed specific courses that all finish with a compact but challenging theory exam before proceeding onto the next course. Whether you are new to makeup or been in the industry for a bit or perhaps just want to learn for fun, our Makeup Artist Program is available to anyone with a passion for beauty.

NEXT START DATE: **SEPTEMBER 10, 2024**

In-person Workshop

Gain further technical skillsets with your coaches all under one roof.

NOW \$296.25

UPCOMING DATE: May 25, 2024

COURSE OPTIONS: ONLINE ONLY OR HYBRID FORMAT

HYBRID OPTION

1 Day 9:00am - 4:30pm + Online Component (Hybrid Course)

Students will be required to complete an online theory component before the course begins. Training at the school will be focused on achieving strong practical proficiency in Brow Shaping & Facial Waxing.

This workshop, taught in a hybrid format, is designed to teach students the skills and knowledge required to successfully perform eyebrow shaping and facial waxing on your clients. Students will learn correct measurements of brows, perfect eyebrow arching, brow tweezing and the safe, step by step technique of brow and facial waxing using a variety of waxes. Training will focus on client consultation; face-shaping analysis, the five basic brows, brow make up and tools of the trade. Students will require two models for this workshop (hybrid structure).

PROGRAM OUTLINE

Students will complete the online theory portion that covers the required curriculum for Day 1 of the course.

Students will receive access to the online component one week prior to starting the practical in person component.

Day 1

AM: Students will participate in a Q & A session and review theory + Station set up. Students will require a model at 10:00am - 12:00pm (Brow Shaping & Brow Wax)

PM: Students will require a model at 12:30pm – 2:00pm (Full Face Wax)
Note: this model may be the same client as the morning
Students will require a model at 2:30pm – 4:00pm (Brow Shape & Wax + Brow Makeup Application)

ONLINE OPTION

This class requires the student to study ahead of attending a mandatory instructor-led Q & A. You will receive online access to this class through our online school, Moodle, two weekends prior to the week of your scheduled Day 1. Students must attend the webcam-enabled Q & A with your Instructor, where your questions can be answered and your readiness to begin Quota submission can be gauged.

NOW \$995

UPCOMING DATE: April 22, 2024

COURSE OPTIONS: ONLINE ONLY OR HYBRID FORMAT

Hybrid Structure: Students will be required to complete an online theory component before and during the course. Training at the school will be focused on achieving strong practical proficiency in Eyelash Extensions.

Master the technique for applying classic eyelash extensions. This certified course (taught in a hybrid format) covers an overview of eyelash extensions, products to use for application, health and safety and client preparation. Students will learn the complete application process including: lash selection, solution, bonding, framing, removal and troubleshooting. Client after care, product knowledge, recommended service charge, marketing tips and tools will also be reviewed. Students will receive hands on practical training applying extensions on a model under the supervision of a Master Level Trainer. Models required for class.

PROGRAM OUTLINE

Students will complete the online theory portion that covers the required curriculum for Day 1 of the program. Students will receive access to the online component one week prior to starting the practical in person component.

AM: Students will review theory training and practice making lashing on a mannequin head

PM: Model is required (1pm - 4pm)

Day 2

AM: Model is required (9am - 12pm) PM: Model is required (1pm - 4pm)

3Day Evening Class

Day 1

Students will review theory training and practice making lashing on a mannequin

Day 2 & 3

Model is required both evenings (5pm - 9pm)

NEXT START DATE: APRIL 15, 2024

2 Certifications: Microblading Technician, Bloodborne Pathogens

Includes: training manual and Microblading kit (value \$360) Students must complete 10 practicums to receive certification (5 clients – initial treatment plus client touch up)

COURSE OPTIONS: HYBRID FORMAT = ONLINE THEORY & IN-PERSON PRACTICAL TRAINING

6 days Day 1 - 3 Theory 9:00 am - 4:30 pm

Day 4 - 6 Practical 9:00 am - 4:30 pm

THE LATEST TECHNOLOGY FOR EYEBROWS

Microblading is a 3D eyebrow, semi-permanent technique lasting from 1–3 years. This innovative technique is one you can easily add to your service menu. It simply involves using a hand method tool and multiple micro needles. It is considered to be semi-permanent, as compared to the traditional hair stroke technique. Extensive theory and hands on practice will have you feeling extremely confident and ready to create beautiful Microbladed brows once you've completed the course. Our team of Microblading educators have been trained by Tina Davies, world renowned Permanent Eyebrow Artist and trainer.

WHAT IS MICROBLADING?

Microblading is a method ideal for anyone wanting to enhance the look of their eyebrows. The results are natural looking, hair-like strokes, regardless of the amount of hair present. The pigments used in this method have been formulated to match your original eyebrow colour, and if the eyebrows are still present they will blend perfectly into them. Your clients will be astounded by the natural and flawless outcome of their fuller looking brow. Initially, the brows will appear darker but will fade significantly over a two week period. A touch up may be required as it is difficult to predict how well the skin will retain the pigment.
