

Aura

Professional
Gel Polish System

Helios

A three-step gel polish system with up to three weeks of wear time, Helios' Aura line offers 113 highly pigmented colors that provide perfect coverage. A hit with salon clients due to its high gloss, durability, and easy removal, Aura can be cured under either a UV or an LED lamp.

Aura Base Coat: Protects while delivering good adhesion and wear time for any type of nail.

Aura Top Coat: Provides superior shine and enhances color by giving it a crisp, vivid look.

Aura Matte Top Coat: Bestows an elegant, soft-touch, matte effect on any gel polish, with no sticky residue to clean off.

Aura Top Coat GO!: Seals gel polish under a tack-free, super-glossy layer.

Step by Step

Before Application

Clean

- Wash the client's hands thoroughly and dry them with a towel.
- Use an antiseptic agent on the client's hands to eliminate any risk of infection.
- Remove any nail polish.

Form & Shape

- Create a nail form and, if necessary, shorten the length of the natural nail using Helios' **Aphrodite 180/180** Nail File.
- Use the Pusher to push back the cuticle and remove all nonliving tissue.

Nail Preparation

- Buff the natural nail plate using the soft side of Helios' **Apollo 100/180** Buffer.
- Remove any dust from the entire nail surface using a dust brush.
- Apply **Helios Spectrum Dehydrator** to remove moisture and oils from the natural nail plate.

Application

- Apply a thin layer of **Aura Base Coat** to the nail. Seal the nail tip. Cure under an LED lamp for 30 seconds or a UV lamp for 90 seconds. Repeat the process on the other hand.
- Apply a thin layer of **Aura Color Coat**. Seal the nail tip. Cure under a UV lamp for 90 seconds or under an LED lamp for 30 seconds. (Lamps may differ; the times listed are for strong LED & UV lamps)
- Apply a second **Aura Color Coat**. Seal the nail tip. Cure under a UV lamp for 90 seconds or under an LED lamp for 30 seconds.
- Apply a thin layer of **Aura Top Coat** to the nail. Seal the nail tip. Cure under a UV lamp for 90 seconds or under an LED lamp for 30 seconds.
- Use Cleanser and cotton pads to remove sticky residue. (Not applicable when using Aura Top Coat GO!)

Removal

- Wash, dry, and disinfect the client's hands thoroughly.
- Buff off the top coat using a Helios **Hypnos 120/180 Nail File** before soaking.
- Put Gel Polish Remover on a cotton pad and place on the nail. Wrap the nail with foil and allow the nail to soak for 10–15 minutes. Repeat on all 10 nails.
- Use the Pusher to remove any gel polish residue.
