Repêchage®:
THE ORIGINAL SEAWEED BASED
SKIN CARE COMPANY

Why Seaweed?

"My personal commitment to create the most beautiful and effective products came from my own personal experience with the sea.

Repêchage® has worked with leading scientists and aquaculturists to sustainably harvest several species of nutrient-rich seaweeds from the Coast of Maine. Once dried, the seaweeds are packed and sent to our ISO 9001-2015 certified manufacturing facility in Secaucus, NJ. There, by an exclusive proprietary method, Repêchage® chemists draw potent extract from these seaweeds that are rich in vitamins, minerals, trace elements, and amino acids.

Repêchage® offers a multitude of luxurious, seaweed-based face and body products to pamper and restore the look of the skin, helping it appear smooth, soft and renewed.

You will sea the difference!"

— Lydia Sarfati
Repêchage® CEO and Founder
