# ACE

## LEATHER JACKET \$399.95

The ACE Jacket from DRIRIDER is a great value vintage style leather jacket made from soft and supple tumble finished leather for an instant worn in look & feel. Looks great as a casual jacket and fantastic on your bike with the knowledge that you are protected with the included CE approved armour in the shoulders and elbows. There is also a pocket for a back protector (available separately). Stylish detailing with the ribbed shoulders and pewter finish fixings. Great for summer riding or looking cool down the café or pub.

- High quality tumble finished Buffalo Crunch leather - Polyester lining

- CE elbow and shoulder armour included
- Pocket to insert back armour
- Outside Napoleon chest wallet pocket, two outside side pockets
- Zipper to connect to trousers

#### CE LEVEL 2 BACK PROTECTOR \$39.95

- CE Certified EN1621-2 Level 2 back protector
- D30® patented technology

CLIMATE BOOTS

- Airwave technology for improved airflow
- Ergonomic design for comfort and protection
- Can be fitted to any Jacket inside the back protector pocket When fitting the airwave pattern should face the inside against the riders back
- As protector pockets vary in size the OE supplied pad can be left in place for a tighter fit, the D30 protector should always be on the inner side against the rider

D30 VIPER PRO BP

D3O contains intelligent molecules that lock together on impact to absorb and spread the force of impact to provide maximum shock absorption. www.d3o.com

# D30<sub>®</sub> COMFORT

## BOOT INSOLES \$29.95

The D30® Comfort Insole offers long-term cushioning in the form of a soft foam bed. Added shock absorption beneath the heel means that this insole is ideal for constant use in day-to-day low impact energy activities. Can fit inside any boot with removable insoles & can be trimmed to size.

SPORTS TOURING HELMET

GRAPHICS \$279.95 - SOLIDS \$249.95

The new DRIRIDER D-Sport helmet offers performance and comfort in an amazingly affordable package. The interior liner and ventilation systems work together to draw cool air throughout the helmet, while the aerodynamic design reduces turbulence, drag and wind noise.

Multi-port Air Induction System — 4 inlet vents and 6 exhaust ports circulate airflow for maximum comfort in the hottest conditions.

Channelled Dual layer EPS foam protection liner and matching padded comfort liner maximise airflow for premium cooling. Dual Density EPS Impact Liner provides progressive impact absorption for improved safety.

Quick change tool-less Visor base plates means visor changes are a breeze!

Breath guard to minimize visor fogging.

Tint and Coloured Iridium visors available separately from only \$49.95

PREMIUM QUILTED LINER

# **TECHNOLOGIES USED BY DRIRIDER**

# d30<sup>tm</sup>

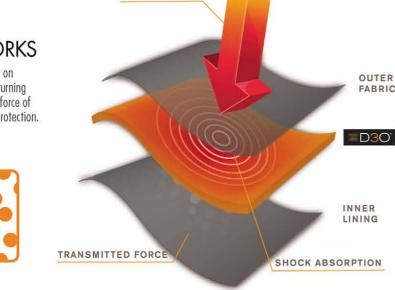

#### HOW D3O® TECHNOLOGY WORKS

D30® materials in their raw state flow freely when moved slowly, but on shock, lock together to absorb and disperse energy, before instantly returning to their flexible state. This reaction is counter intuitive. The greater the force of the impact, the more the molecules lock together and the greater the protection.

IMPACT FORCE

"Limits are something that sportsmen & women face every day, both physically & mentally, and to be successful you have to break those limits. ENERTOR™ insoles have D30® technology that is scientifically proven to improve performance & reduce the risk of injury. Being able to train harder & perform better enables everyone to break their limits."

Usain Bolt

USAIN BOLT REVEALED AS FACE OF NEW D30 PARTNER BRAND ENERTOR™

# **TECHNOLOGIES USED BY DRIRIDER**

#### MILITARY TECHNOLOGY

Used in military combat uniforms for over 40 years.

Specifically engineered Nylon fibre with cotton & Polyester for strength & durability. As comfortable as cotton denim with 4 times better abrasion resistance.

#### DRIRIDER WAX COTTON

Unique Dry-Wax polymer Infused for the life of the garment with no messy residue. Retains the unique look of Vintage Wax Cotton jackets using modern day technology to permanently bond the coating to the fabric with a dry touch finish.

#### DRIRIDER ALUMINIUM TEXTILE

An Aluminium based fabric with outstanding wind blocking and insulating properties.

No need to be cold this winter: An integrated aluminium lining ensures that your heat stays in the jacket and the cold stays out. There's also a winter flap to ensure that you do not get cold on the chest as there's a superior padding behind the front zip.

DUPONT Excellent Warmth: Comformax™ offers excellent insulation value with amazingly low weight through the multi-layer structure. This unique feature makes micro fibres uniformly dispersed and creates more air pockets that increase insulating performance.

MC-FIT Maximum Comfort FIT technology in gloves laminates the liner and membrane with the outer shell for a perfect fit and prevents the liner from following the hand when removed.

L.I.T technology takes the visibility of motorcyclists at night to an all new level. What appears a normal fabric during the daytime will light up in a cars headlights during night time making the rider highly visible to other road users.

Microscopic glass beads are integrated in the L.I.T fabric, even the smallest amount of light will be reflected right back to the source by these tiny beads. You will be visible from close up or a long distance away.

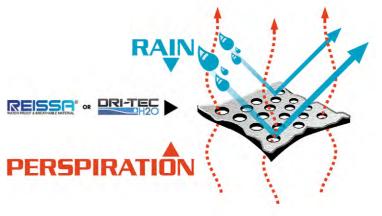

#### WATERPROOF LINER

The Reissa® & DRI-TEC H2O are both a functional breathable liner or membrane with high sensitivity concerning weather conditions. This technology creates an extremely thin waterproof material that is light weight for comfort but extremely durable. It is highly resistant to rain & wind while maintaining breathability. It is very flexible with a comfortable soft touch.

INNOVATIVE MOTORCYCLE CLOTHING

#### The individual features of each product, are identified by icons as listed below:

Waterproof.

Micro textile technology. Waterproof material yet fully breathable.

Adjustable air vents. Zip open air ventilation panels.

Waterproof outlet. Mesh panel to vent condensation from sleeve end & waist.

Zip out quilted thermal vest.

Zip out quilted thermal jacket lining.

Zip out waterproof jacket lining.

Detachable inner lining. Zip out quilted thermal trouser lining.

Detachable inner lining. Zip out waterproof trouser lining.

Heavy duty 1.5 litre water bladder.

Protective liner reinforcement. Advanced technology fibre is extremely strong & very light. Extreme tear and abrasion resistance.

Anti scratch snaps.

Rubber coated press studs.

Adjustable waist straps.

Back protector. Spinal protection padding included.

European Community stringent safety standard approved shoulder / elbow guards.

European Community stringent safety standard approved knee protectors.

Heat resistant material on the inner lower legs.

Riveted construction for superior strength & durability.

Waist connection zip.

Woven Nylon material.

Cordura. Extremely high tear & abrasion resistance. Lab tested, 10 times stronger & more durable than cotton.

Adjustable bicep / arm straps. Anti flap arm adjustment.

Mobile phone pocket.

iPod / Smart phone pocket.

Top quality cowhide leather.

Thinsulate = Patented micro fibre technology. Enhanced ability to trap & store body heat.

Teflon Protective coating.

Reflective for enhanced night time safety.

UV Protective coating.
