

**#1 IN THE WORLD**

**COLLECTION 2018**

# 1971-2018

## COMPANY OVERVIEW

Since 1971, HJC has specialized in manufacturing motorcycle helmets exclusively. The combination of this extensive specialized manufacturing experience, innovative ideas, and reasonable pricing resulted in HJC's success in worldwide markets. It is HJC's continual goal to provide high quality, comfortable, and reasonably priced helmets to motorcyclists around the world.

In the modern era of helmet manufacturing, HJC is proud to say that our helmets are constantly tested in both laboratory testing as well as in "real" life for quality assurance. HJC is only one of very few helmet companies that are equipped with its own state of the art wind tunnel testing laboratory to test for aerodynamics, ventilation, noise, etc. Further, HJC has 2 helmet factories in 2 different countries; Korea and Vietnam. These factories provide strategic venues to produce high end, mid, and entry level products to satisfy the demands of consumers around the world.

## HISTORY & EVOLUTION

In the fall of 2012, HJC expanded its range with the introduction of RPHA, a series of premium helmets that feature Premium Integrated Matrix Plus (PIM+) construction for an extremely light weight shell, and superior aerodynamics and comfort. This model showcases our technical capabilities and innovations such as our advanced ventilation channeling system and our unique composite shell designs. The RPHA 11, our most recent release in the RPHA series, is being worn by professional racers including MotoGP rider Jonas Folger. What sets our RPHA 11 apart is that it offers all the features of high-end helmets at prices that are accessible to the average consumer, an accomplishment our high-end competitors have not been able to do. The RPHA 11 helmet offers extremely light weight for rider comfort. In fact, it is one of the lightest in its class.

In 2015, we introduced the all new IS-MAX II. Since its introduction, members of the media have been praising the IS-MAX II without reservation. IS-MAX II was ranked the highest in quality and performance by the reputable Motorrad Magazine for helmets under 495 Euros. And for 2016, we are excited to bring you several new graphic designs and new models. In addition to our premium line up of helmets in RPHA 11, we are proud to introduce some new designs on our more value driven products such as RPHA ST, FG-ST, IS-17, FG-70 S and others. They are some of the most popular helmet models in the market place simply because of their fantastic value driven features.

HJC has also teamed up with some of the biggest brands in the world to produce Officially Licensed Marvel and Star Wars Motorcycle Helmets. The Marvel® line launched in 2016 and the Star Wars® helmets followed in 2017, with more graphics to come in the near future.

HJC won't stop here, as we work to incorporate technology into helmets in order to lead innovative features in the industry. With the addition of the helmet models mentioned above, it is clear that HJC continues to be a brand that is friendly to motorcyclists around the world providing quality, comfortable, stylish and affordable helmets.

Just trust in HJC and enjoy your ride!  
Thank you, HJC Family

-  FACTORY
-  WORLDWIDE OFFICE
-  DISTRIBUTORS

## OUR FACTORIES ARE DEDICATED TO QUALITY AND A REASONABLE PRICE

HJC has 3 factories based in South Korea, China, and Vietnam, which produce more than one Million helmets per year. Your helmet is hand-made by very skilled workers with over 40 steps in that process. The perfect logistics guarantees a reasonable price. The quality control ensures your satisfaction.

## THE LARGEST SALES DISTRIBUTION NETWORKS WORLDWIDE

A good distribution organization and suited warehouses enable HJC to deliver more than one million helmets around the world. In the USA and Europe, hundreds of thousands of helmets, accessories, and spare parts are stored ensuring an outstanding delivery and after-sales service.

HJC MARVEL

# RPHA 11

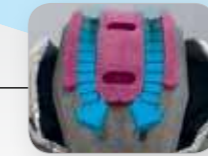

## FEATURES

With the all-new RPHA 11, HJC once again sets new standards for helmet performance. Many additional design innovations create an aerodynamically superior helmet with excellent ventilation, ultra-plus comfort and outstanding safety features. In total, the RPHA 11 indisputably demonstrates why HJC remains #1 in the world.

### WIND-TUNNEL TESTED

Superior airflow characteristics formed in the HJC wind tunnel

### NEWLY DESIGNED LINER OFFERS MAXIMUM AIR FLOW

Specially designed channels route cooling air throughout helmet interior

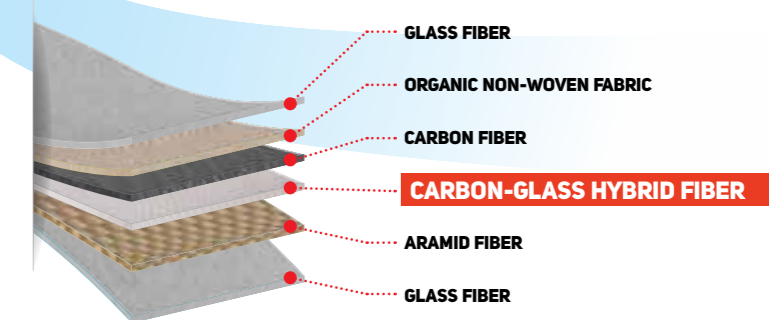

### NEW BOTTOM/REAR EXHAUST VENTS

Strategically positioned to increase exit flow of hot air

### P.I.M. PLUS

Reinforcement materials, including Carbon and Carbon-Glass Hybrid fabric, provide enhanced Shock-Resistant performance, more comfort, and lightness of helmet.

### PRECISION TOP-VENT CONTROL

Positive, multi-position vent controls incorporate Glove-friendly scroll action

### AERODYNAMIC TOP VENT

Advanced shape and location for increased air intake plus stylish lines

### NEW FOREHEAD VENT

Increases air intake and channels cooling air for improved circulation

### ENLARGED VIEW PORT

Improved rider view range derived from extensive racing experience

### MULTI-POINT LOCKING SYSTEM

Clean, simple design provides an extra-secure shield seal

### REDESIGNED SIDE INTAKE VENTS

Easy-open vents enhance air flow and help clear shield fogging

### EASY-TO-USE EMERGENCY QUICK RELEASE

Cheek pads can be removed quickly to assist emergency helmet removal

### SLEEK SHELL DESIGN

Appealing shape is also aerodynamically sound for greater comfort

### DETACHABLE CHIN CURTAIN

Reduces wind noise and blocks out turbulent airflow

# FG-ST

## FEATURES

The HJC FG-ST is constructed from an Advanced Fibreglass Composite Shell which is lightweight, and thanks to the use of CAD technology offers a comfortable and superior fit. The advanced channeling system offers full front to back airflow which flushes heat and humidity up and out of the helmet. The RapidFire visor replacement system allows quick, tool-less removal replacement of the visor; which is also Max Vision Pinlock ready. The FG-ST also has a 3 stage tinted internal sun visor.

The helmet is tested at Wind Tunnel Laboratory

-  **Integrated Sunshield:** Smoke tinted Sunshield deploys quickly and easily
-  **Advanced Fiberglass Composite Shell:** Lightweight, superior fit and comfort using advanced CAD technology
- "ACS" Advanced Channeling Ventilation System:** Full front to back airflow flushes heat and humidity up and out
-  **RapidFire™ Shield Replacement System:** Quick, secure, tool-less removal and installation
-  **Silvercool™ Interior:** Moisture-wicking and liners with advanced anti-bacterial fabric. Crown and cheek pads are fully removable and washable
-  **Optically-superior Anti-fog lens-prepared Face shield:** New 3D design, anti-scratch coating and is prepared for the ultimate anti-fog insert (included)
-  **Eye glasses and sun glasses friendly EPS shape**

All sizes of cheek pads are interchangeable in all helmet sizes

# IS-17

## FEATURES

The IS-17 is perfect for the daily commuter or anyone else who doesn't want to fuss with swapping shields in and out. IS-17 has a centrally mounted slide on the top of the helmet which will lower a tinted sun-visor to keep the sun at bay. The IS-17 features a moisture wicking interior liner coupled with generous intake and exhaust vents for channeling cool air in and hot air out.

**Advanced Polycarbonate Shell:** Lightweight, superior fit and comfort using advanced CAD technology

**Aerodynamic shell with large eye port for greater visibility**

**One-Touch Integrated SunShield:** Smoke-tinted 3-stage adjustable SunShield deploys quickly and easily (Patent Pending)

**"ACS" Advanced Channeling Ventilation System:** Full front to back airflow flushes heat and humidity up and out

**Removable, moisture-wicking interior with advanced anti-bacterial fabric**

**RapidFire™ Shield Replacement System:** Simple and secure shield ratchet system provides ultra-quick, tool-less removal and installation for efficient operation

**Micro Buckle with Retention Strap:** Quick-release and adjustable

**Anti-fog lens prepared shield included**

# TR-1

## FEATURES

The HJC TR-1 is constructed from an advanced polycarbonate shell which is lightweight, and thanks to the use of CAD technology offers a comfortable and superior fit. The advanced channeling system offers full front to back airflow which flushes heat and humidity up and out of the helmet. The RapidFire visor replacement system allows quick, tool-less removal of the visor. The TR-1 has a 3 stage tinted internal sun visor with Damper Gear; HJC's all new sun visor system with a smooth lever for reduced wind noise.

**Advanced Polycarbonate Shell:**  
Lightweight, superior fit and comfort using advanced CAD technology

**One-Touch Integrated SunShield:** Smoke-tinted 3-stage adjustable SunShield deploys quickly and easily (Patent Pending)

**RapidFire™ Shield Replacement System:**  
Quick, secure, tool-less removal and installation

**"ACS" Advanced Channeling Ventilation System:**  
Full front to back airflow flushes heat and humidity up and out

# CS-15

## FEATURES

HJC's CS-15 full face helmet for the price conscious. The Advanced Polycarbonate Composite Shell is lightweight and provides superior fit and comfort by using HJC's advanced CAD technology. The CS-15 features many technologies usually only available in HJC's more expensive helmets like ACS, Air Channelling System: Adjustable forehead chimney and chin vents, and two rear exhaust vents flush heat and humidity out keeping you cool. HJC's optically-superior Face Shield: provides 95% UV protection and is fitted with the RapidFire™ Shield Replacement System.

**Advanced Polycarbonate Shell:**  
Lightweight, superior fit and comfort using advanced CAD technology

**RapidFire™ Shield Replacement System:**  
Quick, secure, tool-less removal and installation

**Optically-superior Face Shield:** provides 95% UV protection

**Advanced Ventilation System:** Adjustable forehead and chin vents, and two rear exhaust vents

**Nylex® Interior:** Plush, moisture-wicking fabric. Crown and cheek pads are fully removable and washable. All CS-15 cheek pads are interchangeable throughout all helmet sizes

**Micro Buckle with Retention Strap:** Quick-release and adjustable

# IS-MAX II NEW

## FEATURES

The HJC IS-MAX II is a feature-rich modular helmet that features a drop down internal sun visor for cutting down glare and making your ride all that much more enjoyable. A moisture-wicking anti-bacterial liner pulls sweat towards the integrated ventilation channels and the chin bar raises with a single button that is easily operated with a gloved hand.

**Advanced Polycarbonate Composite Shell with Adjustable Polycarbonate Chinbar:** Lightweight, superior fit and comfort using advanced CAD technology

**One-touch Integrated Sunlight Film:** 3-stage adjustable Sunlight Film deploys quickly and easily

**Single-button chinbar/Face shield Release:** Open with one hand even with gloves on

**Optically superior Anti-fog lens-prepared Face shield:** New 3D design, an anti-scratch coating and is prepared for the ultimate anti-fog insert

**QuickSlide™ Shield Replacement System:** Quick, secure, tool-less removal and installation

**"ACS" Advanced Channeling Ventilation System:** Full front to back airflow flushes heat and humidity up and out

Crown and cheek pads are removable and washable

Glasses Groove can accommodate riders who wear glasses

# FG-JET

## FEATURES

The HJC FG-Jet Helmet is a modernly-styled open face helmet that features a full face shield for keeping the wind and bugs at bay. The FG in FG-Jet stands for fiberglass. The use of fiberglass makes for an exceptionally high strength to weight ratio and it is the material of choice for most premium helmets.

**Advanced Kevlar and Fiberglass Matrix Composite Weave Shell:** Lightweight, superior fit and comfort using advanced CAD technology

**One-touch Integrated SunShield:** 3-stage adjustable SunShield deploys quickly and easily (patent pending)

**UV-treated Flip-up Faceshield**

**QuickSlide™ Shield Replacement System:** Quick, secure, tool-less removal and installation

**"ACS" Advanced Channeling Ventilation System:** Full front to back airflow flushes heat and humidity up and out

**Silvercool™ Interior:** Moisture-wicking interior with advanced anti-bacterial fabric. Crown and cheek pads are removable and washable

**Anti-fog lens Prepared shield**

**For more comfortable fit, FG-JET comes in 3 different shells:** 1<sup>st</sup> shell for XS-S sizing, 2<sup>nd</sup> for M-L sizing, and 3<sup>rd</sup> for XL-2XL sizing

## SHIELD CARE & CLEANING

**HJC DOES NOT RECOMMEND CLEANING ANY SHIELD WITH SPRAY ON TYPE CHEMICAL CLEANERS.**

A reaction between shield and cleaning chemical is possible, resulting in haze build-up and distortion. HJC recommends washing the shield with warm water and soft cloth only.

We also recommend cleaning the shield as soon as possible after dirt and debris have accumulated. Do not let debris sit on the shield for any extended period of time.

If debris has accumulated over time, it is recommended to clean the shield in several applications. This allows the debris to break down with every application.

Excessive rubbing can lead to scratching as the hard debris can act as a scuffing agent. The same can occur if low grade rigid paper towels are used.

| TYPE      | HELMET       | SUNVISOR REF | CLEAR   | LIGHT TINT | DARK TINT | HI-DEFINITION |

COIN SAVER  
Jorge Lorenzo, Ben Spies

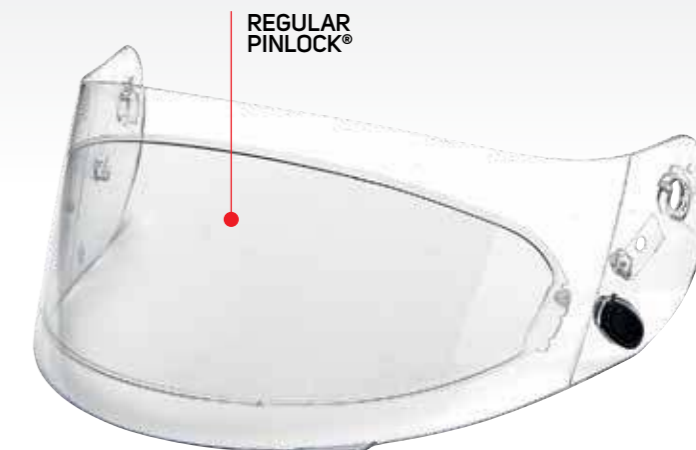

# THE PINLOCK® PRINCIPLE

The PINLOCK® fog resistant lens is created out of a moisture absorbing plastic. The silicone seal on the PINLOCK® lens creates an air tight double shield. The pins are eccentric, which means that the shaft of the pin is positioned off center. This enables the user to increase the tension on the lens by turning the pins, allowing the silicone seal to have a perfect fit with the PINLOCK® Prepared shield.

| MODEL   | LENSES | COLOR      | PART NO. |
