

**FINDING THE BALANCE**

**LOST ICE PACKS?**

Tired of having to make children wait with you for indefinite periods while they use an ice pack, fearing that if they return to class the ice pack will not be returned? Or just looking for a **LESS EXPENSIVE ALTERNATIVE?**

Medichill's Cool Cubes for Children ice pack is the answer from **62c a sheet or under 11c if you cut to smaller size**

School nurses agreed, the main Medichill benefits are:

Hydrated gel within pad cell

Soft touch fabric surface

Flexible backing sheet

**What are Medichill Cool Cubes for Children?**

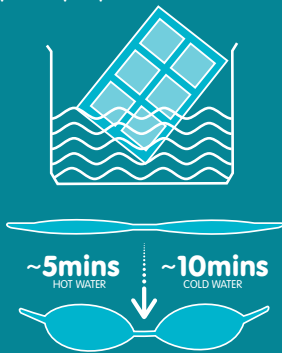

Cool Cubes for Children absorb and retain clean water, that can then be frozen or chilled to offer comforting, medication-free pain relief and pacification for the bumps, bruises, stings and bites that children suffer at school, home or play.

They promote a prompt recovery by getting them back to class faster, minimise cross-infection and the impact on the school budget.

**FREEZE, APPLY and WAVE GOODBYE!**

Medichill Cool Cubes for Children - Successfully used in schools for over 25 years

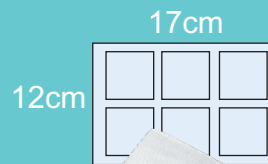

**Simple to prepare**

**Children can take back to class**

under **11c** when you cut to individual cubes

**Why pay up to \$2 for an ice pack**

Cool Cubes for Children  
**62c** per sheet  
100 pack rate 88c  
1000 pack rate 62.7c

“Great for getting kids out of the Health Centre and back to class faster. Saved on more expensive non-disposable ice packs that we use for more serious injuries. The children think they are great and like the gel feel when they melt. Good size and portable.”

S. Reid School Nurse
