

# Qwik-Switch Repeater Installation

[www.qwikswitch.co.za](http://www.qwikswitch.co.za)

1) To setup the repeater:

- Press and hold the link button until the LED flashes, then release.
- Wait for the LED to flash once
- Set the repeater to an ID between 1 and 7 by pressing the link button the required amount of times.
- Press once to set as repeater 1 and 7 times to set as repeater 7.

2) Maximum repeaters in a system: 7

3) Mount repeater as high as possible, antenna to point vertically.

4) Mount repeater centrally between transmitters and receivers.

5) Never set two repeaters, within a system, to the same Repeater ID number.
