

Kid Magic Game Calls

Kid Magic Turkey Pot Call Kit Directions

Time to let the magic begin! We hope that you enjoy the experience of building a call to take to the woods on your next turkey hunting adventure.

1. Design your wood sound board.
 - a. Draw a picture, write your name, glue a picture, and be creative!
2. (Wood Pot Only) You will need to sand, customize and finish the wooden pot. This is a fun step and be creative!
 - a. First you will want to sand the pot to your desired finish. Start with 100 grit and finish up to 220 grit.
 - b. Clean the wooden surface thoroughly and be creative with painting, writing, drawing etc. on the pot.
 - c. Finish the pot with a clear gloss aerosol polyurethane. You will want at least 2 coats inside and out.
 - d. Once completely dried per the polyurethane manufacturer's directions sand the sound board pedestal and the calling surface ledge with 60 grit sandpaper.
3. Use the enclosed glue and place a small bead on the pedestal inside the pot and place the wood sound board centered in the pot onto the glue. (place a can or jar on top and allow to dry for 12 hours)
4. Use the enclosed glue and place a small bead onto the calling surface ledge and place the glass calling surface onto the glue. (place a can or jar on top and allow to dry for 12 hours)
5. You will now need to sand the glass calling surface on a small portion where you will run the Magic Wand (striker) with 60-100 grit sandpaper.

Included Magic Components

- Plastic Pot (Black, Camo, Pink Camo, or Wood)
- Glass Calling Surface
- Cherry Sound Board
- Magic Wand (striker)
- Glue
