

For strong BONES + healthy JOINTS

NEO-K9® is an ALL NATURAL supplement for dogs that is backed by years of scientific research, veterinarian-supervised clinical case studies, and six US patents. Traditional supplements based on glucosamine, chondroitin, and/or MSM only address one aspect of skeletal health - the joints. NEO-K9® does so much more. This unique ALL-IN-ONE product is the first of its kind to provide support to your dog's ENTIRE skeletal system - BOTH their bones AND their joints.

NEO-K9® Maintenance Formula is a lactoferrin-based product that supports **STRONG BONES + HEALTHY JOINTS** in dogs of all ages, sizes, and breeds.

This **ALL NATURAL** product:

- Contains a multifunctional + patented nutrient complex
- Promotes healthy bone remodelling + bone turnover
- Supports joint comfort + mobility
- Maintains healthy cartilage + connective tissue function
- Contains 90 tasty + chewable tablets in every bottle

NEO-K9® Clinical Formula is a maximum strength product which contains more of the same active ingredients.

NEO-K9® Maintenance Formula can be purchased from your local pet supplier, or online at: www.neok9.uk

NEO-K9® Clinical Formula is available exclusively from participating veterinarians. For additional information contact us at: woof@neok9.uk

HOW DOES NEO-K9® WORK?

NEO-K9® is a natural lactoferrin-based supplement that supports strong bones and healthy joints in dogs.

This all-in-one supplement uses the science from six US patents and is based on a powerful complex containing ribonuclease-enriched lactoferrin (R-ELF). R-ELF is a high quality, natural, lactose-free, milk-derived protein that has been clinically shown to help maintain strong bones by supporting healthy bone turnover. R-ELF also offers similar benefits to many traditional joint supplements by promoting mobility, flexibility, and healthy joint function. For comprehensive support NEO-K9® also contains well-balanced ratios of the key bone and joint vitamins, minerals, and antioxidants required by your dog's skeletal system.

WHY DOES MY DOG NEED NEO-K9®?

NEO-K9® is safe and effective for dogs of all ages, sizes, and breeds. The formula is glucosamine-free and can serve as a multifunctional alternative for dogs with glucosamine sensitivities.

NEO-K9® Maintenance Formula is particularly beneficial for large breed puppies during their rapid growth phases, small dogs with fragile bones and joints, agile or active dogs with aches and pains, and senior dogs so they can continue to enjoy their favourite activities.

NEO-K9® Clinical Formula delivers powerful bone and joint support to dogs with advanced needs. This maximum strength formula is available exclusively through veterinarians.

IF I GIVE MY DOG NEO-K9®, DO I NEED TO GIVE HIM OR HER ANY ADDITIONAL JOINT SUPPLEMENTS?

NEO-K9® is designed as an ALL-IN-ONE supplement that supports both your dog's joints (collagen synthesis, lubrication, mobility, and comfort) as well as their bones (turnover, density, etc). While it is usually unnecessary to give your dog any additional joint supplement while taking NEO-K9®, the product can be added to an existing supplement programme. For your dog's specific needs, please ask your veterinarian.

For strong BONES + healthy JOINTS

HOW MANY TABLETS SHOULD I BE GIVING MY DOG?

Each bottle of NEO-K9[®] contains 90 chewable liver and sausage flavoured tablets and lasts for 30-90 days depending on your dog's weight. Give your dog the recommended amount daily. Check the table on the side of the bottle, or see reverse for exact quantities.

DOG SIZE - WEIGHT	DAILY REC.	1 BOTTLE
 Small - up to 5 kg	1 tablet	90 days
 Medium - 5 to 23 kg	2 tablets	45 days
 Large - over 23 kg	3 tablets	30 days

Manganese
Magnesium (oxide)
Zinc
ANTIOXIDANT SYNERGISTS
Quercetin
Selenium
Liver powder (porcine), dextrose, stearic acid, sunflower lecithin, silicon dioxide, sodium bicarbonate, magnesium stearate

MY DOG IS PICKY. WILL HE OR SHE TAKE NEO-K9[®]?

We understand that dogs can be picky which is why NEO-K9[®] has been tested for palatability. Each tablet is chewable and a delicious liver and sausage flavour - most dogs think NEO-K9[®] is a treat! If your dog happens to be one of the picky few who won't gobble it up, the tablets are easy to crush and mix into food.

HOW LONG BEFORE WE WILL NOTICE RESULTS?

While individual results will vary from dog to dog, you should start noticing positive results from NEO-K9[®] within 30 days.

IS NEO-K9[®] A SAFE AND GOOD QUALITY PRODUCT?

Absolutely. NEO-K9[®] was developed in the United States in consultation with veterinarians and a research team to ensure safety. All the ingredients used in the formula are natural and sourced from certified, human-grade suppliers. All ingredients are also third-party tested for purity.

NEO-K9[®] is produced with care in the UK by manufacturers who comply with current Good Manufacturing Practices. The active ingredients are within the limits recommended by the National Research Council and the American Association of Feed Control Officials. All milk proteins used in the formula are lactose-free and safe for dogs with dairy sensitivities. If you have questions about your dog's specific health needs, please ask your vet.

WHAT SHOULD I DO IF MY DOG'S VET HAS NOT HEARD OF THE NEO-K9[®] CLINICAL FORMULA?

Please share our contact details with the vet and invite them to get in touch with us. We will send them some more detailed information about NEO-K9[®] Clinical Formula and can supply the product to them directly.

CAN I GIVE NEO-K9[®] TO MY OTHER ANIMALS?

The NEO-K9[®] product line is recommended for use in dogs only.

I STILL HAVE QUESTIONS. WHERE CAN I LEARN MORE?
