

Continental™

660L

A popular sized container, the Continental™ 660 litre has a deceptively large capacity in a small footprint. Its slim configuration allows it to fit through a standard doorway, making it ideal for indoor storage or secure collection areas.

Part of

Egbert Taylor

Continental™ 660L

Internally welded seams prevent internal corrosion, whilst the hard wearing galvanised steel body and base make for a durable, long lasting container that delivers exceptional lifetime value when compared to plastic or alternative steel containers.

The Continental™ 660 litre waste container is also available with a number of body, handling and lifting options as well as a wide range of body and lid colours - increasing the versatility of your container.

Features

Featured as standard on all Continental™ 660's:

- EN840 compliant
- Internally seam welded
- Hot dip galvanised body
- Welded comb bar
- Side handles
- 20mm top frame
- 2 x swivel castors & 2 x braked castors
- Roto moulded lid

Options

- DIN points
- Custom embossing
- Drop front / drop back panel
- Tag safe
- Drain plug options
- Different handle options
- Different lid types & apertures
- Variety of lid colours
- Powder coated body colour options
- Locking options
