Open Intake Also Available

The CORSA Performance Ford Mustang GT Carbon Fiber air intake features a 100% carbon fiber intake duct and is available in a closed box or open element design. The air duct has been optimized for improved flow and is combined with high-performance filtration to increase overall performance and fuel economy. Dyno tuned for maximum results, the air intake produces up to an additional 20HP and 11 LB-FT TQ from the 5.0L Coyote[®] engine without a tune. Choose from 2 unique carbon fiber intake offerings available in both DryTech and MaxFlow 5 oiled filtration. The Corsa Performance Intake is backed by a Limited Lifetime Warranty to the original purchaser.

*Filters are backed by a 1 year warranty.
